OFFICE MEMORANDUM

UNITED STATES GOVERNMENT

TO : D. M. Ladd
FROM : H. B. Fletcher
SUBJECT: SUPERVISION OF ESPIONAGE INVESTIGATIONS

DATE: February 23, 1949

On February 21, 1949, Mr. Belmont of the New York office requested that the Bureau approve the following named Special Agents for Espionage investigations:

James Patrick Lee
William F. Norton, Jr.
Robert Mathias Kane
James Timothy O'Brien
Edwin R. Tully
Pierre H. LeVec
Walter A. Wangenheim
Rex Irwin Shroder
Thomas Harold Zoeller
Delford L. Cottrill, Jr.
Robert F. Royal

As a result of a review of the personnel files of the above named agents the following comments are made:

Special Agents James Patrick Lee, William F. Norton, Jr., Robert Mathias Kane, James Timothy O'Brien and Edwin R. Tully appear to be qualified. It should be noted however, that Kane is not in his office of preference. It should also be noted that O'Brien lost his commission card on May 17, 1948 and to date it has not been found. No unusual circumstances were involved and he received a letter of censure on May 25, 1948. It should be further noted that Tully was censured on July 12, 1948 and suspended for three days without pay for losing his wallet which contained Bureau property. Since that time he has not been careless, according to information reflected in his personnel file.

Pierre H. LeVec may be qualified for Espionage investigations but he only entered on duty on January 20, 1947. He is actually in his second office although he was assigned to the Washington Field Office and during that period acted as a Bureau supervisor. He was in the Army from April, 1942 until January, 1946 when he was discharged as a Staff Sergeant. He has also received one letter of commendation from a United States Attorney for assisting at a trial.

Walter A. Wangenheim entered on duty January 6, 1947. He is now in his third office and New York is one of his offices of preference. He has only testified once before a Grand Jury but has been given a rating of very good in most court testimony. He was in the Army from July, 1943 to December, 1945 and was discharged as a Sergeant.

cc - New York Office personnel file

JJM:dhb

11 APR 4 1949 22

Rex Irwin Shroder entered on duty on October 13, 1947. He is only in his second office although he was assigned to the Washington Field Office in 1948 and acted as a supervisor in the Records Section of the Bureau. He has testified before United States Commissioner in moot court. He was in the marine Corps from June, 1942 to June, 1946, and was discharged as a First Lieutenant. He is not in his office of preference.

Thomas Harold Zoeller entered on duty on February 3, 1947. He is in his second office and his office of preference is Butte. He has only testified in moot court. He was in the Army from July, 1943 to early 1946 and was discharged as a Staff Sergeant.

Delford L. Cottrill, Jr. entered on duty June 9, 1947. He is in his second office and is not in his office of preference. He testified in moot court only. He was in the Army from September, 1942, to July, 1946, and was discharged as a Captain.

Robert F. Royal entered on duty August 4, 1947. He is in his second office. New York is one of his offices of preference. He has only testified in moot court and on August 6, 1948, the Bureau instructed the New York Office to arrange his assignments so he might have an opportunity to testify in Federal Court. He was in the United States Coast Guard from August, 1942, until September, 1945, when he was discharged as a Specialist First Class.

When Mr. Belmont furnished the foregoing names for approval he advised that he believed they were all qualified either by virtue of experience or because they had reflected promise, enthusiasm, imagination and initiative. He stated that Special Agents Zoeller, Shroder, Royal and Cottrill were all second office Agents but they had been selected after their supervisors had recommended them as being the Agents probably best qualified known to them to engage in espionage investigations.

RECOMMENDATION:

IT IS REcommended that the 11 Agents named above be approved for espionage investigations in the New York office.

EDWIN R. TULLY, SPECIAL AGENT, CAF-12
ANNUAL EFFICIENCY REPORT, MARCH 31, 1949

Special Agent Edwin R. Tully entered on duty with the Bureau as a Special Agent on January 4, 1943 and arrived in the New York Division on November 14, 1946. He is presently in grade CAF-12.

This agent is tall with a slender build. He dresses exceptionally neat and has a friendly personality. He is very well liked by his fellow employees.

This agent has shown an outstanding amount of initiative, resourcefulness, force and aggressiveness in the handling of his work. Considering the length of time this agent has been in the Bureau I think that he has made outstanding progress. His attitude has been excellent.

He is the type of agent who can be assigned a case and it will be known that it will be handled in an appropriate manner. He handles all of his work in a very thorough and intelligent way. He is a very dependable and hard worker. This agent is rated as an excellent dictator.

His firearms record reflects that he has a very good knowledge of Bureau weapons and his scores are rated as very good. He is capable of handling dangerous assignments. He has worked on many physical surveillances and handled himself in an excellent manner.

His report writing is excellent and requires no supervision. He is excellent at organizing and initiating investigations, accepts responsibility and discharges such without supervision. His production is very high. He is physically fit to handle any type of assignment given to him.

During the pertinent period this agent handled Internal Security-C, Security Matter-C, and Loyalty Investigations. This agent has not had an opportunity to demonstrate supervisory ability. He is available for general and special assignment.

I believe this agent is entitled to the rating of EXCELLENT in his present grade.

EDWIN R. TULLY
SPECIAL AGENT
ANNUAL EFFICIENCY REPORT

Special Agent Edwin R. Tully entered on duty with the Bureau on January 4, 1943, and arrived at the New York Office on November 14, 1946. He is currently in Grade GS-⁷₁₂, \$6,600.00, per annum.

This agent is tall, well built, dresses neatly and conservatively and makes a fine impression on law enforcement officers and the general public. He possesses an outstanding amount of initiative and resourcefulness; is aggressive and conscientious and is able to initiate investigations. He carries out his assignments without supervision.

The dictation ability of this agent is rated as excellent. His reports and paper work are well organized and require minimum supervision. He possesses imagination and enthusiasm and his volume of work is above average. His firearms ability is rated very good and he is capable of handling dangerous assignments. He is physically qualified to handle any Bureau assignment and is available for special and general assignments.

This agent has had considerable experience on physical surveillances and his ability to handle these assignments is above average. He has had previous experience in testifying before the Federal Grand Jury, the U.S. Commissioners and the Federal District Court. He has not been called upon to testify during the rating period but from my observation of this agent it is believed he would make a creditable Bureau representative on the witness stand.

In connection with the self-inspection during the rating period the case of RICHARD E. LAUTERBACH, Wa., ESPIONAGE-R was written up calling attention to various investigative techniques that had not as yet been utilized by this agent. It should be pointed out that at the time this case was assigned to Agent Tully he was handling work in connection with the COPLOV-GUBITCHEV cases which were considered of prime importance.

Agent Tully is presently assigned to the Internal Security-R and Espionage-R section of this office where he is handling some of the important phases of the SOVME investigation. He is thoroughly conversant with the operation of Soviet Intelligence and is excellent in organizing and initiating his investigations. He is thorough and competent in the manner in which he handles complex and detailed investigations and is intelligent and imaginative in the carrying out of his assignments. His volume of work is above average and he is capable of handling the more complex type of Bureau investigation.

This agent possesses supervisory and administrative ability and is a loyal, conscientious, hard-working Bureau employee and is rated EXCELLENT in Grade GS-12. ERT

Reference is made to the attached letter of May 17, 1950, from C. A. Siepmann in which he is critical of an interview conducted with him by Special Agent Edwin R. Tully of the New York Office in connection with the Lattimore Case. Specifically he stated he criticized the fact that the Agent made no notes during the interview and stated:

- (1) "Am I to conclude from the fact that no notes were taken that corroborative evidence testifying to the loyalty of a person under investigation is of no interest to the FBI and that it seeks only damaging evidence?"
- (2) "If, on the other hand, evidence substantiating a person's loyalty is of material interest and value to you, is it not important that such testimony be accurately reported?"

He concluded by stating:

"My own conclusion at the end of this interview was that hereafter if evidence is sought from me, I shall arrange for my secretary to make a shorthand record of the interview in the interests of justice and of the good name of the Federal Bureau of Investigation."

A memorandum in his file shows that he was employed by the United Nations Relief and Rehabilitation Administration (UNRRA) on December 6, 1945. Siepmann indicated that he is married but did not furnish his wife's name. Siepmann stated that he had written articles on radio and education in the "Journal of Social and Philosophic Studies," the "Journal of Educational Sociology," and "Radio Research - 1942." According to information furnished by Confidential Informant Washington T-1, of known reliability, Siepmann is a British immigrant, a former teacher at Harvard University, and whose first Government employment was in the Office of Facts and Figures under the direction of Archibald MacLeish. After the dissolution of this agency, he was affiliated with similar ones, including the Office of War Information and the Federal Communications Commission. Siepmann is publicly

described as the founder of the British Broadcasting System and in January, 1946, was said to be preparing a report for the Federal Communications Commission analyzing the American radio system. The report was to urge public ownership of broadcasting facilities and planned programs without sponsors, and being similar to the British system, would call for nationalization of all radio property. According to the informant, Owen Lattimore permitted Siepmann freely to use confidential information obtained while in the employ of the Federal Communications Commission in the preparation of a book being prepared by Siepmann in 1946 entitled "Radio's Second Chance."

According to the informant, the book was to be released simultaneously with the publication of the Federal Communications Commission report and was to be in the nature of a commentary on the Federal Communications Commission report, urging adoption of the plans formulated by the FCC. While in the FCC, Siepmann worked under the direction of Clifford Durr, a former Commissioner with FCC. Durr is a prominent figure in the National Lawyers Guild and has previously been identified in this case.

Inquiry at the Federal Communications Commission reflected that Siepmann is presently employed as a Professor at New York University, New York City. The 1949 Manhattan Telephone Directory reflects a Charles A. Siepmann at 404 Riverside Drive, Apartment 4-C, New York City, Riverside 9-2385.

In 1942, Confidential Informant T-2, of known reliability, advised that Siepmann was well acquainted with Russian Ambassador and Mrs. Maxim Litvinov.

FACTS:

ASAC W. M. Whelan advised Mr. Holloman, in my office, on May 19, 1950, that he was personally acquainted with the background of G. A. Siepmann and was also cognizant of the interview conducted with this individual by Agent Tully of the New York Office. He stated that Special Agent Tully has handled the investigation of the Lattimore Case in the New York Office since its inception and was thoroughly familiar with all facts regarding the case as well as the names of individuals mentioned in the investigation. Mr. Whelan also advised that before this interview was conducted Special Agent Tully was in possession of full facts regarding the background of this individual and for that reason conducted the interview in a most circumspect manner. Mr. Whelan further stated that Special Agent

Tully is an outstanding Agent and because of his knowledge of this case, it is not necessary for him to take copious notes during an interview of this nature but he did know that immediately after the interview Agent Tully had made sufficient notes and dictated a report two days following the interview. Mr. Whelan was requested to discuss this matter with Special Agent Tully and submit complete facts to the Bureau.

On May 20, 1950, a teletype was received from the New York Office advising that Special Agent Tully had been questioned concerning his interview with Siepmann and Agent Tully advised that at the outset of the interview Siepmann asked if the information he was able to furnish would be supplied to the person in question, namely Owen Lattimore. He was advised that it would not be furnished to Owen Lattimore but would be incorporated in the files of the FBI. Special Agent Tully told Siepmann that he could write Lattimore about the interview if he felt Lattimore should know it. Siepmann then asked Agent Tully if anything he said was quoted in evidence before Lattimore if his name would be set forth or if his name would remain anonymous. He was advised that unless a person specifically requested that his name remain confidential, the person's name would be set out in an FBI report as the source of the information. Siepmann then indicated he was satisfied but pointed out that he disliked the use of confidential informants. Special Agent Tully made no comment to this remark. Siepmann was then asked some pertinent questions concerning Owen Lattimore and he answered, in essence, that he considered the charges against Lattimore as "fantastic." Siepmann mentioned during the course of the interview, specifically, the name of Mr. Buss who succeeded Owen Lattimore as head of OWI in San Francisco and Philip Lilienthal, who was responsible for hiring personnel in the Chinese section of the OWI in San Francisco. Both of these names were entirely familiar to Special Agent Tully as a result of his activities in the investigation of the Lattimore Case and at the time these names were mentioned during the course of the interview, Special Agent Tully was well aware of the fact that both of these men had been interviewed concerning Owen Lattimore. Concerning the incident to which Siepmann refers as substantiating Lattimore's loyalty, as disclosed in Siepmann's letter, these are duly and accurately reported in the report of Special Agent Tully at New York dated May 17, 1950. The New York Office advised that this report further accurately reports all the information furnished by Siepmann. Special Agent Tully advised that at no time during the interview which lasted less than fifteen minutes was there any necessity for making notes and immediately following the interview,

Memo to Mr. Tolson from Mr. Nichols
Re: C. A. Siepmann

May 22, 1950.

as is his custom, Special Agent Tully made notes outside the presence of Mr. Siepmann. The New York Office advises that these notes made by Special Agent Tully fully covered the interview with Siepmann and accurately reported what he had to say following the interview. The New York Office has also advised that Special Agent Tully informs that after the preliminary remarks referred to by Siepmann during the course of the interview he appeared to be cordial and cooperative and offered no comments to Agent Tully which would indicate that he was in any way displeased with the interview.

In the report of Special Agent Edwin R. Tully dated May 17, 1950, at New York in the Owen Lattimore Case, the following appears under details:

"Charles A. Siepmann, Professor, New York University, Press Annex Building, 26 Washington Place, New York City, was interviewed by SA Edwin R. Tully on May 15, 1950. Mr. Siepmann advised that he became an Assistant Director of the Office of War Information (OWI) in San Francisco, California, in 1943 and remained with the OWI until 1945. He stated that during this time Owen Lattimore was the Director of the OWI Office in San Francisco.

"Mr. Siepmann declared that he was closely associated with Lattimore during that particular period. He stated that he considers the allegations made against Lattimore as 'fantastic.' He said that during his association with Lattimore he never had the slightest reason to question Lattimore's loyalty to the United States. Mr. Siepmann declared that he could recall no instance that would indicate to him that the San Francisco Office of the OWI was pro-Communist or that the propaganda policies of OWI concerning China were pro-Communist or anti-Nationalist.

"Mr. Siepmann advised that he had never received the impression, either from conversations with Lattimore or during OWI staff conferences that Lattimore was pro-Communist. He pointed out that if the charges made against Lattimore were true then Lattimore would have seen to it that the OWI policy in the San Francisco Office was interpreted to view the Chinese Communists favorably. However, Mr. Siepmann stated Lattimore not only did not attempt to interpret OWI policy in favor of the Chinese Communists but frequently took no action whatsoever in interpreting the OWI policy and allowed Mr. Siepmann, who was his assistant, to handle such interpretations. Mr. Siepmann pointed out that the policy itself as to propaganda dissemination was formulated in Washington, D. C., and the San

Francisco Office merely interpreted the policy as they received it from Washington, D. C. Mr. Siepmann recalled that during the weekly staff conferences held in the San Francisco Office of the OWI there was a great divergence of opinion on many issues and Lattimore always encouraged members of the OWI to state their own opinions.

"In conclusion, Mr. Siepmann advised that he has read most of the writings of Owen Lattimore and he declared that he could find no pro-Communist or pro-Soviet sentiments in any of Lattimore's writings."

OBSERVATIONS:

It is apparent that Siepmann, considering his background and associates, is trying to pick a fight and his allegations are not borne out by any stretch of the facts in this case. It appears that Special Agent Tully was proper in his handling of this interview and subsequent reporting of the information. It is not believed that Siepmann has any ground for complaint or criticism.

RECOMMENDATION:

It is recommended that the attached letter go to Siepmann.

Mr. J. Edgar Hoover

Washington, D. C.

Dear Mr. Hoover:

I am sure that as a servant of the public you will not resent a communication from one of its members, particularly as I have nothing other than of a constructive nature to communicate.

You are, I am sure, aware that a good many members of the public have been disturbed with reference to the activities of the FBI in their gathering of information about private citizens. Mr. Bernard de Voto, for instance, voiced in Harper's Magazine a serious concern as to the reliability of the information gathered by your agents. This whole matter came my way for the first time when a member of your staff, a Mr. Tully, asked to interview me on Monday last with reference to an acquaintance of mine. I told him that I was willing to answer his questions to the best of my ability, given the assurance that anything I said which was quoted in evidence before the person concerned should be cited as having been communicated by me. I was, in other words, loath and indeed unwilling to be an anonymous informant.

Our conversation lasted about a quarter of an hour and I volunteered some opinions and a good deal of illustrative information. What disturbed me about the interview was that your agent made no note of the conversation throughout the interview. This was disturbing to me on two counts. I had nothing to say about the person concerned which was not corroborative evidence of his loyalty to this country. Am I to conclude from the fact that no notes were taken that corroborative evidence testifying to the loyalty of a person under investigation is of no interest to the FBI and that its seeks only damaging evidence? If, on the other hand, evidence substantiating a person's loyalty is of material interest and value to you, is it not important that such testimony be accurately reported? During our interview I mentioned the names of persons, incidents and other matters with respect to which accuracy was of the first importance.

Mr. Hoover-continued

- 2 -

5/17/50

The suggestion I have to make is that in the interests of all concerned a record of the information gathered be submitted for confirmation to the person interviewed. Only so, as I see it, can we, as citizens, be assured that the material gathered by your agents, whether damaging or corroborative of the loyalty of any person, is accurately reported to you. My own conclusion at the end of this interview was that hereafter if evidence is sought from me, I shall arrange for my secretary to make a shorthand record of the interview in the interests of justice and of the good name of the Federal Bureau of Investigation.

RE: ALSR
ESPIONAGE - R

Dear Sir:

Rebutel 10/19/50.

Edwin R. Tully

In connection with the meetings between ALSR and NIKOLAI NIKITIN on 10/7/50 and the coverage of ALSR on 10/8/50, the following observations are made.

The Bureau will observe from New York letter of 10/13/50, that the coverage of these meetings was detailed and of necessity required the utilization of a great number of personnel in order to obtain the desired successful results.

With regard to commendation concerning the handling of this matter, the following comments are made:

J. HAROLD GLASCOCK - the ALSR case is assigned to Agent Glascock who was responsible for setting up the coverage of the meetings and worked out the over-all plan and equipment to be utilized. He also arranged, together with SA Martin F. Carey, for the plants from which it was possible to operate the photographic equipment and likewise engage in physical surveillance of ALSR. It is felt the successful operation of this matter was materially affected by the intelligent, conscientious and thorough work of Agent Glascock.

MARTIN F. CAREY - Agent Carey assisted Agent Glascock in the over-all arrangements for coverage of these meetings. He engaged in the physical surveillance of NIKITIN and he was one of the agents who initially observed and identified NIKITIN as being the individual who contacted ALSR. Agent Carey also assisted in setting up the original plans for the coverage of the meeting and his work was of a high caliber, showing imagination, good judgment and careful analysis of his assignment.

RAYMOND P. WIRTH - Agent Wirth prepared the charts which were utilized in connection with the laying out of the surveillance on 10/7/50. He also participated in the physical surveillance on 10/7/50 and surveyed the

area prior to the meeting in order to insure complete and detailed plans regarding the coverage of this meeting.

JOHN J. O'BRIEN - Agent O'Brien participated in the physical surveillance of the meeting place between ALSR and NIKITIN at the time of the initial contact. He was wearing a miniature transceiver and was the first one to advise of the identification of NIKITIN. Agent O'Brien utilized good judgment, tact and alertness in the manner in which he handled his assignment. He also participated in the later meeting on 10/7/50 and the coverage of ALSR on 10/8/50. It is believed Agent O'Brien is worthy of special commendation.

ANTHONY P. LITRENTO - Agent Litrento surveilled the immediate area on which the initial contact between ALSR and NIKITIN took place. He likewise identified NIKITIN and indicated intelligence and alertness in the manner in which he handled this assignment. He assisted in notifying other personnel not in radio communication of the identity of the contact through discreet use of a pre-arranged signal in order to avoid unnecessary surveillance; likewise participated in the later surveillances in this matter and handled his assignments in a manner worthy of special commendation.

PAUL J. BLASCO - Agent Blasco also covered the point of initial meeting between ALSR AND NIKITIN. His assigned place was so situated that he did not observe the initial contact; however, he had to operate in the immediate area in such a manner as to prevent any suspicions being aroused, especially since he was also equipped with a personal transceiver. Agent Blasco also participated in the physical surveillances covering the second meeting on 10/7/50 and the surveillance at 680 Park Avenue from the stationary plant on 10/8/50, at which time NIKITIN was observed leaving 680 Park Avenue at 1:58 P.M. Agent Blasco handled his assignment in outstanding fashion.

Agents CHARLES VAN DERVEER and DANIEL R. PATTON, both of whom are sound men, handled the setting up and installation of the technical radio equipment utilized in the two stationary plants on 10/7/50 for the 5:00 P.M. meeting. This encompassed the setting up of two-50 watt transceivers, as well as the testing and installation of the personal transceivers utilized by the agents at the scene and the testing of the automobile and radio equipment in the sedan delivery truck. These agents also set up the microphone surveillance at the Statler Hotel to cover ALSR. They exhibited a high degree of efficiency in the manner in which they handled their assignments.

Confidential Letter to Director
NY 65-14976

It is believed the Bureau's attention should be particularly called to the work of the employees of the Photographic Laboratory assigned to New York who operated the photographic equipment at the scene of the initial meetings, as well as setting up composite photographs of the arrangements used in connection with the over-all plan of the surveillance and the other photographic work which was necessary in connection with this matter.

Photographer Lawrence A. Winsch took pictures of the meeting between ALSR and NIKITIN from a disguised package at the scene of the original contact.

Photographer Warren J. Gaynor obtained very good photographs of the contact from the back of the sedan delivery truck.

Photographers Donald Bucher and Frank Schweitzer operated the movie and still equipment from Plant A and Photographers Arthur J. Bourque and Kenneth Delanoy operated similar equipment from Plant B.

These men worked under extremely poor light conditions; however, the photographs obtained were considered excellent under the circumstances. During the planning of the surveillance these men exhibited enthusiasm and interest and were of great assistance in the selection of the type of equipment necessary for the successful coverage of the area and the work of all of these men is considered outstanding.

In connection with the coverage of the initial meeting at 5:00 P.M. on 10/7/50, it was necessary to use, as appropriate cover, female personnel assigned to the New York Office. These girls were utilized on the surveillance at the scene of the initial contact and it was necessary for them to utilize good judgment and intelligence in the manner in which they handled themselves in order to prevent disclosure of the fact that we were covering this area and to blend into the general over-all background at this particular time of day. Furthermore, it was necessary to utilize female personnel to cover the scheduled meeting on 10/8/50.

It is felt that all the girls utilized performed their assignments in a highly satisfactory fashion and intelligently followed instructions. They exercised good judgment and in general exhibited initiative above and beyond their regular assigned duties. It is felt that the work of all of these girls is worthy of special commendation: Rachel Furey, Kathleen M. Gillen, Irene Maloney, Maureen J. McManus, Geraldine Meyer, Helen M. Toomey and Genevieve A. Wozny.

Other than the agents who participated above the following are those agents who had various types of assignments on physical and microphone surveillances in connection with this case. It should be pointed out that all the employees who participated evidenced extreme enthusiasm,

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
- ✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.

O No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out below.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out below.

- ✓ (1) Personal appearance.
- ✓ (2) Personality and effectiveness of his personal contacts.
- ✓ (3) Attitude (including dependability, cooperativeness, loyalty, enthusiasm, amenability and willingness to equitably share work load).
- ✓ (4) Physical fitness (including health, energy, stamina).
- ✓ (5) Resourcefulness and ingenuity.
- ✓ (6) Forcefulness and aggressiveness as required.
- ✓ (7) Judgment, including common sense, ability to arrive at proper conclusions; ability to define objectives.
- ✓ (8) Initiative and the taking of appropriate action on own responsibility.
- ✓ (9) Planning ability and its application to the work.
- ✓ (10) Accuracy and attention to pertinent detail.
- ✓ (11) Industry, including energetic consistent application to duties.
- ✓ (12) Productivity, including amount of acceptable work produced and rate of progress on or completion of assignments. Also consider adherence to deadlines unless failure to meet is attributable to causes beyond employee's control.
- ✓ (13) Knowledge of duties, instructions, rules and regulations, including readiness of comprehension and 'know how' of application.
- ✓ (14) Technical or mechanical skills.
- ✓ (15) Investigative ability and results:
 - ✓ (a) Internal security cases
 - ✓ (b) Criminal or general investigative cases
 - ✓ (c) Fugitive cases
 - ✓ (d) Applicant cases
 - ✓ (e) Accounting cases
- ✓ (16) Physical surveillance ability.

- ✓ (17) Firearms ability.
- ✓ (18) Development of informants and sources of information.
- ✓ (19) Reporting ability:
 - ✓ (a) Investigative reports
 - ✓ (b) Summary reports
 - ✓ (c) Memos, letters, wires
 - (Consider: conciseness; clarity; organization; thoroughness; accuracy; adequacy and pertinency of leads; administrative detail.)
- O (20) Performance as a witness.
- ✓ (21) Executive ability:
 - ✓ (a) Leadership
 - ✓ (b) Ability to handle personnel
 - ✓ (c) Planning
 - ✓ (d) Making decisions
 - ✓ (e) Assignment of work
 - ✓ (f) Training subordinates
 - ✓ (g) Devising procedures

June 22, 1951.

Dear Edgar,

EDWIN TULLY

I write in reply to two letters from you, the first dated February 8, 1951, after the conviction of William Walter Remington, and the second dated March 30, 1951, after the convictions of the Rosenbergs, Morton Sobell and David Greenglass. I should have written to you sooner. In fact, I intended to even before hearing from you. The intense activity in this District, with which you are so familiar, including my own involvement in courtroom activities within the past several months - and with that, too, you are familiar - are in part the explanation for what might be considered unforgivable dilatoriness. I hope, nevertheless, that you will accept my explanation.

At the outset, I acknowledge with full pride and gratitude your commendatory observations about me and my work. These are not first occasions for your plaudits to me and I say frankly that nice things about one, particularly from you, are not at all hard to take. I only hope that your estimation of me may continue.

ORIGINAL FILE # 62-68750-66
You say in your letter of March 30th that, the Rosenberg case "is truly a sterling example of our democratic processes in action and a distinctive achievement to be enrolled in the annals of our American courts' history". My staff and I cheerfully and willingly acknowledge that and eagerly share that tribute with you and the men of the Federal Bureau of Investigation. They worked the same nights and Saturdays and Sundays and holidays with us. They did so when getting the evidence before the trials and we also had the benefits of their views and their judgments as we went along. The feeling of mutual high regard between my office and the Bureau, especially the New York Field Office headed by Ed Scheidt, is a commonplace. The convictions are the products of this fine relationship. As you know, our joint work is continuing, particularly in similar fields. Both you and I may be reassured in the knowledge that our activities in the future will be performed in the same spirit of mutual cooperation and understanding as has prevailed heretofore.

2 JUL 27 1951

Honorable J. Edgar Hoover.

June 22, 1951.

I want to convey to you for record purposes my deep appreciation of the unstinting and unselfish contribution of Special Agent in Charge Edward Scheidt and Assistant Special Agent in Charge William M. Whelan. Their fine attitude, not only in these cases but in all our relations, are a continuing source of satisfaction and pleasure. Each of the following members of the Bureau made a valuable and significant contribution in the respective cases, as indicated. Your detailed reports show the respective parts which they played. The result is a composite of their individual and collective high qualities.

I want to add a special word of commendation for the fine work of John Speaks, Edward Sweet and John Creedon, serving as legal attaches in Mexico City, Mexico. In the case against Sobell, there were some highly sensitive aspects relating to the defendant's flight to Mexico and his return. I felt it necessary, before the commencement of the trial, to look into the situation myself. During this visit and in the course of my activities and those of my Confidential Assistant Roy M. Cohn, whose work took him to Vera Cruz and Tampico, we were afforded the most valuable and effective help. What is more, they were personally congenial and sociable, making our stay there delightful.

Finally, in closing, I restate my oft-repeated expressions of appreciation for all the nice things you have kept saying about me, for all the fine help that you have afforded to me, including the occasions when my work has taken me away from my office.

With renewed expressions of my high esteem and affection for you, I remain,

Sincerely,

Rating Period: from 3/31/51 to 2/8/52

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.
Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
- ✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
- O No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out below.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out below.

- (1) Personal appearance.
- (2) Personality and effectiveness of his personal contacts.
- (3) Attitude (including dependability, cooperativeness, loyalty, enthusiasm, amenability and willingness to equitably share work load).
- (4) Physical fitness (including health, energy, stamina).
- (5) Resourcefulness and ingenuity.
- (6) Forcefulness and aggressiveness as required.
- (7) Judgment, including common sense, ability to arrive at proper conclusions; ability to define objectives.
- (8) Initiative and the taking of appropriate action on own responsibility.
- (9) Planning ability and its application to the work.
- (10) Accuracy and attention to pertinent detail.
- (11) Industry, including energetic consistent application to duties.
- (12) Productivity, including amount of acceptable work produced and rate of progress on or completion of assignments. Also consider adherence to deadlines unless failure to meet is attributable to causes beyond employee's control.
- (13) Knowledge of duties, instructions, rules and regulations, including readiness of comprehension and 'know how' of application.
- (14) Technical or mechanical skills.
- (15) Investigative ability and results:
 - (a) Internal security cases
 - (b) Criminal or general investigative cases
 - (c) Fugitive cases
 - (d) Applicant cases
 - (e) Accounting cases
- (16) Physical surveillance ability.

- (17) Firearms ability.
- (18) Development of informants and sources of information.
- (19) Reporting ability:
 - (a) Investigative reports
 - (b) Summary reports
 - (c) Memos, letters, wires
 - (Consider: conciseness; clarity; organization; thoroughness; accuracy; adequacy and pertinency of leads; administrative detail.)
- (20) Performance as a witness.
- (21) Executive ability:
 - (a) Leadership
 - (b) Ability to handle personnel
 - (c) Planning
 - (d) Making decisions
 - (e) Assignment of work
 - (f) Training subordinates
 - (g) Devising procedures
 - (h) Emotional stability
 - (i) Promoting high morale
 - (j) Getting results
- (22) Ability on raids and dangerous assignments:
 - (a) As leader
 - (b) As participant
- (23) Organizational interest, such as making of suggestions for improvement.
- (24) Ability to work under pressure.
- (25) Miscellaneous. Specify and rate:

A. Specify general nature of assignment during most of rating period (such as security, criminal, applicant squad, or as resident Agent, supervisor, instructor, etc.): Security

B. Specify employee's most noteworthy special talents (such as investigator, desk man, research, instructor, speaker): Investigator - Desk Man

C. (1) Is employee available for general assignment wherever needs of service require? Yes If answer is not 'yes', explain in narrative comments.

EDWIN R. TULLY
SPECIAL AGENT
SPECIAL EFFICIENCY REPORT

This special efficiency report is being submitted in view of Agent Tully's transfer to the Seat of Government.

Special Agent Edwin R. Tully EOD Bureau January 4, 1943. He arrived in the New York Division on November 14, 1946 and is presently in Grade GS-12.

During the rating period SA Tully has been assigned to the Internal Security-R and Espionage-R section of this office and in particular has been handling some of the major aspects of the Sovme investigations. He has demonstrated administrative and supervisory ability in the manner in which he has carried out his assignment, has exercised good judgment and is a tenacious, thorough investigator. Agent Tully has a thorough understanding of the Sovme espionage system. He operates with a minimum of supervision.

This agent is physically qualified to handle any duties requiring arduous physical exertion and to participate in raids and dangerous assignments involving the use of firearms and defensive tactics.

Agent Tully has not had occasion to testify during the rating period; however, during the past he has testified in Federal District Court, before U.S. Commissioners and Federal Grand Jury. From his general appearance and demeanor I believe he would make a very creditable impression as a Bureau representative on the witness stand.

By letter dated April 10, 1951, SA Tully was commended by the Bureau for the manner in which he carried out his duties relative to the espionage case involving Julius Rosenberg and others.

Agent Tully is a loyal, hard-working, conscientious Bureau employee definitely rated SATISFACTORY with those agents in Grade GS-12.

This office advised the Bureau by letter 1/2/52 that SA Edwin R. Tully would report on transfer to the Bureau 2/1/52. This is to advise that there may be a slight delay in SA Tully's reporting. Mrs. Tully, who is expecting a baby later in the year, was ordered to the hospital by the doctor last evening, 1/24/52. The doctor feels that within a very few days he will be able to determine whether or not existing complications will clear up.

The Tullys have two small children. In view of the fact that Mrs. Tully is presently in the hospital, it is recommended that SA Tully not report to the Bureau until Mrs. Tully returns home. At the present time, it is not expected that this latter will delay SA Tully's departure more than, possibly one or two weeks.

During the rating period he was assigned to the New York Office until his assignment to the Espionage Unit of the Domestic Intelligence Division on February 11, 1952. Accordingly, this is a joint annual and sixty-day performance rating.

The SAC of the New York Office commented that during the rating period Agent Tully had been assigned to the Internal Security - R and Espionage - R Section of that office and in particular had handled some of the major aspects of the Soviet investigations. He has demonstrated administrative and supervisory ability in the manner in which he has carried out his assignment. The SAC stated that Agent Tully had exercised good judgment and is a tenacious, thorough investigator. He has a thorough knowledge of the Soviet espionage system and operates with a minimum of supervision.

He was commended by letter dated April 10, 1951, for the exemplary, competent and thorough manner in which he carried out his duties in the espionage case involving Julius Rosenberg and others.

Since his arrival in the Espionage Unit he has been assigned to the supervision of investigations involving Soviet officials, couriers and their contacts. He took over this desk during the period of an intensification program for expanded coverage of Soviet officials. He has made a rapid adjustment to his new position. Utilizing his excellent background to sound advantage, he has demonstrated his capacity to handle the most complex investigative matters and to produce a large volume of work.

Agent Tully is rated as an excellent dictator. He has a practical approach and his correspondence indicates a keen comprehension of the over-all objectives of the investigations assigned to him. He readily accepts and discharges responsibility. He is able to grasp the essential elements of his day to day problems with considerable facility and to resolve them with sound judgment.

EDT

This Agent is in good physical condition and is capable of handling dangerous assignments and those requiring strenuous physical exertion.

SA Tully has an excellent attitude and gives unstintingly of his time outside regular work hours to get the job done.

He is entitled to a rating of "Satisfactory."

Name of Employee EDWIN R. TULLY

Title Special Agent, GS-12

Rating Period: from 4-1-52 to 3-31-53

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.
Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
- ✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
- O No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out below.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out below.

- (1) Personal appearance.
- (2) Personality and effectiveness of his personal contacts.
- (3) Attitude (including dependability, cooperativeness, loyalty, enthusiasm, amenability and willingness to equitably share work load).
- (4) Physical fitness (including health, energy, stamina).
- (5) Resourcefulness and ingenuity.
- (6) Forcefulness and aggressiveness as required.
- (7) Judgment, including common sense, ability to arrive at proper conclusions; ability to define objectives.
- (8) Initiative and the taking of appropriate action on own responsibility.
- (9) Planning ability and its application to the work.
- (10) Accuracy and attention to pertinent detail.
- (11) Industry, including energetic consistent application to duties.
- (12) Productivity, including amount of acceptable work produced and rate of progress on or completion of assignments. Also consider adherence to deadlines unless failure to meet is attributable to causes beyond employee's control.
- (13) Knowledge of duties, instructions, rules and regulations, including readiness of comprehension and 'know how' of application.
- (14) Technical or mechanical skills.
- (15) Investigative ability and results:
 - (a) Internal security cases
 - (b) Criminal or general investigative cases
 - (c) Fugitive cases
 - (d) Applicant cases
 - (e) Accounting cases
- (16) Physical surveillance ability.

- (17) Firearms ability.
- (18) Development of informants and sources of information.
- (19) Reporting ability:
 - (a) Investigative reports
 - (b) Summary reports
 - (c) Memos, letters, wires

(Consider: conciseness; clarity; organization; thoroughness; accuracy; adequacy and pertinency of leads; administrative detail.)
- (20) Performance as a witness.
- (21) Executive ability:
 - (a) Leadership
 - (b) Ability to handle personnel
 - (c) Planning
 - (d) Making decisions
 - (e) Assignment of work
 - (f) Training subordinates
 - (g) Devising procedures
 - (h) Emotional stability
 - (i) Promoting high morale
 - (j) Getting results
- (22) Ability on raids and dangerous assignments:
 - (a) As leader
 - (b) As participant
- (23) Organizational interest, such as making of suggestions for improvement.
- (24) Ability to work under pressure.
- (25) Miscellaneous. Specify and rate:
 - Capability for additional responsibility.
 - Dictation ability.

A. Specify general nature of assignment during most of rating period (such as security, criminal, applicant squad, or as resident Agent, supervisor, instructor, etc.): Supervisor - security matters

B. Specify employee's most noteworthy special talents (such as investigator, desk man, research, instructor, speaker): Desk Man

C. (1) Is employee available for general assignment wherever needs of service require? Yes (If answer is not 'yes', explain in narrative comments.)
 (2) Is employee available for special assignment wherever needs of service require? Yes (If answer is not 'yes', explain in narrative comments.)

FROM : H. L. Edwards *per wst*SUBJECT: EDWIN RAYMOND TULLY
Special Agent
Domestic Intelligence Division

RE: REALLOCATION

b6
b7C

SA Tully entered on duty 8-20-41 as a Clerk, on 1-4-43 he was appointed to the position of Special Agent and he has been in Grade GS-12 since 11-16-47. His service as an Agent has been uninterrupted and he is being considered for Grade GS-13 reallocation on the basis of 10 years of service.

On 6-10-43 he was CAUTIONED for the unsatisfactory manner in which he conducted an investigation relative to [redacted] an applicant for a position in the Office of Emergency Management. It was the opinion of the Bureau that he exercised poor judgment in contacting the maid of an individual who was under investigation, as he should know that it was necessary to keep the investigation in a confidential status. It likewise appeared that during the course of the investigation he asked the maid a number of questions concerning [redacted] personal habits which obviously had no bearing on the case. This matter was called to the Bureau's attention by Mr. James Rowe, Jr., The Assistant to the Attorney General who commented that the investigation was conducted in a "sloppy manner." On 7-12-43 he was CENSURED and suspended for three days in view of the fact he lost his wallet containing a Government Transportation Request Book, a book of Tax Exemption Certificates and a Tax Exemption Identification Card which had been issued to him.

Letters of COMMENDATION were directed to him on 4-29-46 and 4-10-51.

On 3-31-49 and 3-31-50 he was rated EXCELLENT and on 3-31-51 he was rated SATISFACTORY in the upper limits. His 1952 annual performance rating was SATISFACTORY and the accompanying comments indicated that he was an above average Agent. On 2-11-52 he was transferred to the Domestic Intelligence Division.

His overtime for October, 1950, was 25 minutes, for November was 1 hour 43 minutes, for December was 1 hour 53 minutes, for March 1952 was 1 hour 59 minutes, and for August, 1952 was 1 hour 58 minutes.

On 6-9-52 Mr. Belmont submitted his name in connection with the Bureau's advancement program and added he had a good experience in security matters and had shown very satisfactory adjustment as a Bureau Supervisor. It was not considered that he was presently capable of handling the duties of an ASAC. In view of the limited amount of administrative experience it was recommended that he be given further training in his present assignment. He had indicated that he was interested in being considered for assignment as an ASAC and he noted that he had had little administrative experience.

JIC:pjr/FDH:pjr 33 30 APR 1 1953.

On 1-30-53 Mr. Branigan advised he had an excellent record with the Bureau and he had utilized an excellent background in security work to distinct advantage in effecting an above-average adjustment to the duties of a Bureau Supervisor. His overtime for October, 1952 was 2 hours, 12 minutes, for November was 1 hour 53 minutes, and for December was 2 hours 41 minutes. Mr. Branigan recommended that he be reallocated to Grade GS-13 as soon as the promotional policy of the Bureau would permit. No action was taken at that time due to the freeze on reallocations.

On his 1953 annual Performance Rating Mr. Branigan rated him SATISFACTORY and said he had a good investigative experience in security work which he utilized to good advantage, he was enthusiastic about his assignments, and he had displayed excellent initiative and aggressiveness in the discharge of his responsibilities. He was a conscientious employee who applied himself with due diligence, his attitude was very favorable, and he had willingly contributed of his own time without regard to personal convenience in order to promote the work in the Espionage Section. It was considered that he had the capability for development to positions of greater responsibility. He could and regularly did handle the more complicated investigative matters, he was in good physical condition, and he had no impediments which would impair his use of firearms or limit him on dangerous assignments. By separate communication Mr. Branigan recommended his reallocation to GS-13.

RECOMMENDATION: Although this Agent was the subject of administrative action in June and July, 1943, in view of the lapse of time since that action and his otherwise satisfactory record, it is recommended that he be reallocated to Grade GS-13, \$8360 per annum at this time.

EDWIN RAYMOND TULLY
SPECIAL AGENT, GS-13

Entered on duty - January 4, 1943.

Agent Tully has been assigned in the Domestic Intelligence Division and in the Espionage Section since February 11, 1952. He currently supervises espionage investigations involving Soviet Embassy personnel.

This Agent has very satisfactorily adjusted to supervisory responsibilities. He is conscientious, industrious and very much interested in his assignment. Agent Tully has acquired a thorough knowledge of his duties and exercises good judgment in the supervision of his cases. Agent Tully presents an excellent personal appearance and favorably impresses those with whom he is in contact. There are no limitations on his availability for service.

This Agent has excellent capabilities for further development on a long-range basis. It will be noted that he has had limited supervisory experience and for this reason it is not felt that he is presently capable of immediately assuming the duties of an Assistant Special Agent in Charge. It is felt, however, that the experience he is gaining here is rapidly developing him to a point where he could assume such greater responsibility.

File reviewed for possible reclassification to GS-14 but found not exceptionally outstanding so as to recommend and further consideration at this time. Also, whether amendment has been before 3/29/54.

FROM : H. H. CLEGG ✓/m

SUBJECT: DELINQUENT MAIL

DATE: 12/21/53

Clegg

SOMEStic Intelligence Div

During the morning of December 18, 1953, representatives of the Training and Inspection Division checked the work boxes and file cabinet drawers of ninety-eight Supervisors and Officials for delinquent mail. The following pieces were found:

Assistant Director Tracy had a letter from Mr. B. Jacobson dated December 12, 1953, received in the Identification Division December 15, 1953, 10:10 a.m. Mr. Jacobson is Chief Special Agent of the Northern Pacific Railroad Company, and his letter concerned the Bureau's policy of accepting fingerprints from employees of the railroad. Mr. Tracy was of the opinion that this matter should be presented to the Executives Conference. The letter was received too late to take to Conference December 15, 1953; there was no Conference on December 16, 1953, but the matter was taken up on December 17, 1953. An answer was typed to accompany the Executives Conference memorandum on December 18, 1953.

Supervisor Edward R. Tully had in his possession a letter from New York dated December 3, 1953, re Rubens-Robinson Passport Case, Passports and Visas, Internal Security - R. This letter was received in Domestic Intelligence Division December 9, 1953, at 10:58 AM. It requested specific instructions from the Bureau concerning several subjects in the case. A detailed file review was required before an answer could be given. The Supervisor was of the opinion that the files were requested on either December 10 or 11, 1953. Tabs on files in the Supervisor's possession indicated that they were pulled December 11, December 16 and December 17, 1953. The files which were pulled December 16 and 17, 1953, had been located. The Supervisor is now in the process of reviewing these files and preparing an answer which he hopes to have completed sometime during December 18, 1953. Supervisor Tully also advised that he prepared a memorandum in connection with a matter on the Director's special tickler list concerning Harry Dexter White on December 16 and 17, 1953.

Memorandum to Mr. Tolson

Supervisor J. F. Wacks, of the Domestic Intelligence Division, had in his possession a report from SA George A. Van Noy at Heidelberg, Germany, entitled "Cornelius de Wid" (100-347636), which was received in the Espionage Section December 10, 1953, and the report of SA T. P. Scollard, Philadelphia, re [redacted] (100-384556), which was received in the Espionage Section December 10, 1953. Supervisor Wacks advised that these reports were allowed to become delinquent inasmuch as he has been engaged for the past week in preparing two special memoranda concerning Owen Lattimore and one special memorandum concerning Major Dan B. Reynolds, U. S. Air Force.

Supervisor D. E. Todd of the Espionage Section had four pieces of delinquent mail in his possession, which are as follows: Report of SA F. J. H. Hoose, Jr., Los Angeles, dated December 2, 1953, entitled [redacted], was., AEAA" (117-1596), which was received in the Espionage Section December 9, 1953; the report of SA Frank Foree at Albuquerque dated November 30, 1953, entitled [redacted] et al, AEA" (117-153), which was received in the Espionage Section on December 9, 1953; a letter from the Albuquerque Office dated December 3, 1953, re Thermo-Nuclear Weapons Development, Kirtland Air Force Base (117-1616), received in the Espionage Section December 11, 1953; and an air-tel from the Albuquerque Office re Unknown Subject; Alleged Security Violations, Los Alamos Atomic Energy Project (117-1532), which was received in the Espionage Section December 9, 1953. The file was called on December 11, 1953, it has been placed on locate, but has not yet been received. Supervisor Todd stated that he was transferred to the desk which he now handles on December 14, 1953, and on December 15, 1953, he was taken off the matters regularly handled by that desk to aid in a special in connection with the case concerning J. Robert Oppenheimer.

During a check of the mail in the possession of Supervisors assigned to the Alien Enemy Control Unit of the Internal Security Section, Domestic Intelligence Division, it was noted some of the Supervisors checked had delinquent mail in connection with a form used by field offices in reporting Security Index subjects to the Bureau which were to be either

Memorandum to Mr. Tolson

placed on the Security Index or to have certain information changed on cards already prepared. It was ascertained that this was a section problem rather than an individual problem, and that a memorandum is now in the process of being prepared to point out that more time will be required to do a thorough job in reviewing and processing this particular mail than the five days now allotted. Supervisor Joe D. Jamieson, who coordinates all of this mail from the twenty-two Supervisors, advised that on last Wednesday, sixty-one pieces of this type of mail were delinquent. It appears it would be desirable to present this problem to the Associate Director in order that a determination could be made as to whether a more expeditious procedure could be developed in handling work in that Unit.

RECOMMENDATIONS:

(1) It is recommended that no administrative action be taken against any of the individuals who had delinquent mail in their possession.

✓ P.M. 1/18/68

(2) It is recommended that the attached memorandum to Messrs. Tolson, Ladd, and Belmont be sent, which calls to their attention the necessity of preventing mail from becoming delinquent.

Note: The regulations require that OUTSTANDING ratings be supported by a statement in writing setting forth IN DETAIL the performance IN EVERY ASPECT and the REASONS for considering each worthy of SPECIAL COMMENDATION. UNSATISFACTORY ratings must be supported by a statement in writing stating (1) WHEREIN the performance is unsatisfactory, (2) the facts of the (90 day) PRIOR WARNING, and (3) the efforts made AFTER THE WARNING TO HELP the employee bring his performance up to a satisfactory level.

Rating Period: from 4-1-53 to 3-31-54

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.
Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
- ✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
- No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out on the reverse of form FD-185.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out on the reverse of form FD-185.

- (12) Productivity, including amount of acceptable work produced and rate of progress on or completion of assignments. Also consider adherence to deadlines unless failure to meet is attributable to causes beyond employee's control.

OFFICE MEMORANDUM . UNITED STATES GOVERNMENT

TO : L. V. BOARDMAN

DATE: June 7, 1954

FROM : A. H. BELMONT

SUBJECT: SUSPECTED ESPIONAGE,
 FORT MONMOUTH, NEW JERSEY, AND
 FEDERAL TELECOMMUNICATIONS LABORATORIES,
 NUTLEY, NEW JERSEY

My memorandum to you dated 5-11-54 summarized Section VI of the brief prepared in this matter. Section VI was an analysis of possible current problems in connection with matters brought up during the current McCarthy-Army controversy. On page 4 of that memorandum it was pointed out that on 4-21-53 the Bureau advised the Army that our Newark Office would review First Army files at Fort Monmouth and the Federal Telecommunications Laboratories concerning possible espionage activities, and thereafter we requested the Army to furnish Photostats of the necessary material for review but the Army failed to furnish the necessary Photostats. The Director inquired if statement relative to failure of Army to furnish Photostats was accurate as he recalled that they finally did so after a great delay. The recollection of the Director is correct. We finally obtained the Photostats after Army could not handle them all and our New York Office had to assist them. What transpired is that on 7-8-53 Bureau instructed Newark to request Army to furnish Photostats of material for review. On 8-7-53 Newark advised that Army indicated it would take approximately 3 weeks to complete Photostats. On 8-18-53 Newark advised that Army Photostating had bogged down, was being delayed, and in order to expedite matters our New York Office was instructed to Photostat approximately 200 Army dossiers on the Federal Telecommunications Laboratories.

The statement in my memorandum of 5-11-54 would have been more properly phrased had it read, "... but the Army failed to promptly furnish the necessary Photostats and our New York Office had to assist them." This memorandum was a 5-page condensation of 38 pages in the brief. It is regretted that in the interests of conciseness the phraseology used here did not give the full meaning intended.

ACTION:

PERSONAL AND CONFIDENTIAL

Mr. Edwin R. Tully
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Tully:

A review of a summary memorandum prepared by you on May 11, 1954, analyzing possible problems with respect to cases of suspected espionage at Fort Monmouth, New Jersey, and the Federal Telecommunications Laboratories at Nutley, New Jersey, has disclosed an erroneous statement to the effect that the Army had failed to furnish certain Photostats to the FBI. Actually, there was a delay in securing these Photostats with the result that one of our divisional offices assisted the Army in preparing the Photostats but the statement in your memorandum was not accurate.

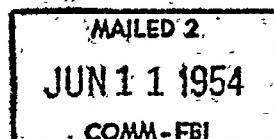

While it is recognized that in preparing this summary you were endeavoring to condense a considerable amount of material into a comparatively short memorandum, the error committed was very serious and conciseness in presentation cannot justify your failure to present the true facts. Therefore, you will be expected to exercise greater care in handling such matters in the future so that you will avoid any similar derelictions.

Very truly yours,

E. Edgar Hoover

SYNOPSIS

BACKGROUND: Milwaukee letter 2/11/55, to Bureau, Chicago, New York and Washington Field Office transmitted corrected copies of page 1 of report of SA Walter L. Roethke, Milwaukee 1/20/55. Said report originally set forth the title as above and stated in the first paragraph of the details "the 1954 Milwaukee City Directory reflects one Earl Caldwell, wife Marie, resides at 5770, North River Forest Drive and is employed by the Minnesota Woolen Co." Bureau letter to Milwaukee 1/31/55, prepared by Supervisor Edwin R. Tully, Espionage Section, Domestic Intelligence Division, called attention to foregoing reference to "Earl Caldwell" and instructed that said name be included in the title of the next report. No request for explanation was contained in said Bureau letter. Milwaukee's referenced letter 2/11/55, advised said name should have been reported as "William Caldwell" and transmitted amended page. No explanation for the error was submitted. Latter communication was received in Espionage Section 2/15/55, was initiated by Supervisor Tully and was routed to Consolidation Unit of Records Section so that the amended page could be substituted. The original report had not been disseminated.

GOVERNING INSTRUCTIONS: SAC Letter 54-23, 5/4/54, provides "In the future all errors to be corrected in reports after they have been forwarded to the Bureau must be submitted by cover letter containing an explanation for the error, together with two.

copies of any corrections to be made on reports previously disseminated." Section 4A 1 j, Manual of Rules and Regulations, provides, "Amended pages of reports are to be submitted to the Bureau by cover letter. The cover letter must contain an explanation for the error, recommendations for any administrative action, if necessary, together with two copies of the amended pages of reports."

EXPLANATIONS REQUESTED: Bureau letter 2/23/55, to Milwaukee, copy to Mr. Belmont, prepared in connection with a survey conducted by Inspector H. C. Van Pelt covering such errors, called attention to foregoing instructions and requested field and SOG explanations.

EXPLANATIONS RECEIVED: SA Roethke advised (1) he submitted his report by rough draft in which he inadvertently substituted the name Earl for William in referring to William Caldwell; (2) he was not available to proofread the finished report; and (3) he submitted the corrected page to the Bureau by Milwaukee letter 2/11/55, which he approved while functioning as Relief Supervisor, without including explanation for the error because it was his impression that the instructions contained in above SAC Letter did not apply to such matters.

Relief Supervisor Eugene G. Babler, Milwaukee advised he approved above report of SA Roethke but failed to detect the erroneous reference to William Caldwell as Earl Caldwell. SAC J. B. Poster advised he impressed the seriousness of foregoing errors upon both SAs Roethke and Babler, that they sincerely regretted same and displayed excellent attitudes. SAC Poster recommended no administrative action be taken.

SOG Supervisor Tully advised he felt that due to no dissemination of the report being involved, the error was relatively minor and warranted no additional correspondence. He said he recognized Milwaukee had not submitted recommendations regarding administrative action, but that Milwaukee was fully cognizant of the error.

Chief W. A. Branigan, Espionage Section advised that explanation should have been submitted by Milwaukee but recommended no administrative action against Supervisor Tully be taken. Mr. Belmont concurred.

CONCLUSION:

Although the investigation does not appear to be jeopardized, the errors have caused additional expense and unnecessary correspondence.

RECOMMENDATIONS

1. SA Walter L. Roethke, Milwaukee . . . recommendation being submitted separately covering this and another similar matter.

2. SA Eugene G. Babler, Milwaukee . . . censure . . . for failure to detect and correct erroneous reference to William Caldwell as Earl Caldwell in Agent Roethke's report.

3. SAC J. B. Poster, Milwaukee . . . recommendation being submitted separately covering his over-all responsibility in this and another similar matter.

4. SA Edwin R. Tully, Espionage Section . . . censure . . . for failure to request explanations from Milwaukee.

5. Chief W. A. Branigan, Espionage Section . . . recommendation being submitted separately covering this and other similar matters.

(6) Inspector C. E. Hennrich, Domestic Intelligence Division . . . recommendation being submitted separately covering this and other similar matters.

(7) Assistant Director A. H. Belmont, Domestic Intelligence Division . . . no action . . . in view of his being previously recommended for censure for this and other similar matters.

Permanent briefs of SAs Roethke, Babler and Tully and ~~SAC Poster~~ are attached hereto.

The report of SA Walter L. Roethke, dated 1/20/55 at Milwaukee, in instant case indicated subject was living in Milwaukee under the name Earl Caldwell. Noting that this name was not carried in the title, the writer instructed Milwaukee by Bulet 1/31/55 to include this name in the title. By letter dated 2/11/55 Milwaukee advised that the name Earl Caldwell should have been William Caldwell and the corrected page was attached for the Bureau. The Milwaukee letter of 2/11/55 did not contain a recommendation for or against administrative actions.

The error involved was that Milwaukee inadvertently referred to subject as Earl Caldwell instead of William Caldwell. Although Milwaukee did not submit recommendations for or against administrative action, I felt that due to the fact that no dissemination of the report was involved, the error was relatively minor. I felt, therefore, that additional correspondence with the Milwaukee office was unnecessary since the error already had been brought to the attention of that office. I now realize that in the future in similar cases where a statement for or against administrative action is not made, I must instruct the field to do so.

ADDENDUM: (WAB: s)

Actually this change of one word could have been effected by erasure and without submission of corrected page. Supervisor Tully did not request a corrected page. Since Milwaukee submitted corrected page, explanation should also have been submitted. In view of minor nature of error, fact that error called to attention of Milwaukee, and fact that no dissemination of report had been made, Supervisor Tully felt further correspondence unnecessary. The necessity for Bureau Supervisors to

insist upon strict compliance with Bureau regulations has been impressed upon Tully. Supervisors in the Espionage Section consistently follow the practice of requiring explanations from the field where errors are made having a substantive effect on the investigation. I recommend no administrative action be taken against Tully.

ADDENDUM: (A. H. Belmont)
(CEH:bsb 4/2-25-55)

The SAC Letter 54-23 provides "In the future all errors to be corrected in reports after they have been forwarded to the Bureau must be submitted by cover letter containing an explanation for the error, recommendations for administrative action, if necessary....." The Manual of Rules and Regulations, 4A 1j, provides "Amended pages of reports are to be submitted to the Bureau by cover letter. The cover letter must contain an explanation for the error, recommendations for any administrative action, if necessary....." We have consistently interpreted these instructions in what we believe to be the spirit of the Bureau's instructions to the field and have called for explanations and recommendations in those instances where substantive errors occurred or where other serious errors occur which would indicate that administrative action should be taken. Since there was an error involved in this case, strict compliance with the Bureau's regulations would have called for explanations from the Milwaukee office. The Supervisor states that he felt that since no dissemination of the report had occurred and the error was relatively minor that additional correspondence with the Milwaukee office was unnecessary. Branigan has pointed out to him that there must be strict compliance with Bureau regulations. Tully recognizes that in future similar instances it will be necessary for him to obtain explanations from the field. I recommend no further administrative action.

Mr. Edwin R. Tully
Federal Bureau of Investigation

Dear Mr. Tully:

Your failure to comply with existing Bureau regulations in connection with your supervision of the Internal Security investigation involving [redacted]

[redacted] has come to the attention of the Bureau. It has been observed that after you had reviewed a report submitted by the Milwaukee Division under date of January 20, 1955, you instructed that office to include the name Earl Caldwell in the title of the next report to be submitted by that division inasmuch as the report in question indicated that it was an alias of the subject. However, when the Milwaukee Division advised by letter dated February 11, 1955, that the name Earl Caldwell was erroneously reported and amended pages were submitted to correct this mistake you should have seen to it that explanations from personnel responsible for this error were obtained together with recommendations for appropriate administrative action as required by existing Bureau instructions.

RECORDED - 138

67-211900-151

Consideration has been given to your explanation that because the error committed by the Milwaukee Division was relatively minor and no dissemination of the report had been made additional correspondence was not necessary; however, this does not justify your failure to [redacted] existing regulations. In the future you will be expected to exhibit closer observance of Bureau instructions in the performance of your duties so that you will not again be chargeable with a dereliction of this nature.

PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee EDWIN R. TULLY Title SPECIAL AGENT, GS-13
 Rating Period: from 4/1/54 to 3/31/55

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.
 Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
- ✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
- O No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out on the reverse of form FD-185.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out on the reverse of form FD-185.

- (1) Personal appearance.
- (2) Personality and effectiveness of his personal contacts.
- (3) Attitude (including dependability, cooperativeness, loyalty, enthusiasm, amenability and willingness to equitably share work load).
- (4) Physical fitness (including health, energy, stamina).
- (5) Resourcefulness and ingenuity.
- (6) Forcefulness and aggressiveness as required.
- (7) Judgment, including common sense, ability to arrive at proper conclusions; ability to define objectives.
- (8) Initiative and the taking of appropriate action on own responsibility.
- (9) Planning ability and its application to the work.
- (10) Accuracy and attention to pertinent detail.
- (11) Industry, including energetic consistent application to duties.
- (12) Productivity, including amount of acceptable work produced and rate of progress on or completion of assignments. Also consider adherence to deadlines unless failure to meet is attributable to causes beyond employee's control.
- (13) Knowledge of duties, instructions, rules and regulations, including readiness of comprehension and 'know how' of application.
- (14) Technical or mechanical skills.
- (15) Investigative ability and results:
 - (a) Internal security cases
 - (b) Criminal or general investigative cases
 - (c) Fugitive cases
 - (d) Applicant cases
 - (e) Accounting cases
- (16) Physical surveillance ability.

- A. Specify general nature of assignment during most of rating period (such as security, criminal, applicant squad, or as resident Agent, supervisor, instructor, etc.):

Supervisor - Security matters.
- B. Specify employee's most noteworthy special talents (such as investigator, desk man, research, instructor, speaker):

Desk man.
- C. (1) Is employee available for general assignment wherever needs of service require? Yes (If answer is not 'yes', explain in narrative comments.)
 (2) Is employee available for special assignment wherever needs of service require? Yes (If answer is not 'yes', explain in narrative comments.)
- D. Has employee had any abnormal sick leave record during rating period? No (If so, explain in narrative comments.)

ADJECTIVE RATING :

SATISFACTORY ERT

Outstanding; Satisfactory, Unsatisfactory

EDWIN R. TULLY

This Agent can and does handle the more complicated investigative matters. He is in good health and there are no limitations which would preclude his use on a dangerous assignment or one involving the use of firearms.

By letter dated June 11, 1954, he was censured for an inaccurate statement in a memorandum prepared by him. By letter dated March 15, 1955, he was censured for failure to obtain explanations from personnel responsible for an error in a Bureau report.

This Agent has accepted in both instances his censure with an excellent attitude. He is striving hard to overcome the deficiency which initiated the administrative action. By his performance he has earned a rating of Satisfactory.

Vacancy exists in position of Supervisor in Charge of Sovme Unit of Espionage Section by reason of resignation of Special Agent Robert J. Lamphere, effective close of business 7/1/55.

Sovme Unit supervises highly complex investigations arising from Bureau Source material and coordinates communications intelligence work of Bureau from investigative aspect. Position of Supervisor in Charge calls for supervision of 7 Agent Supervisors, 1 Mail and File Clerk (GS-5), 1 Secretary (gs-5), 4 Clerks (GS-4), 1 Stenographer (GS-4) and 1 Clerk-Typist (GS-3).

SA Tully, EOD Bureau as clerk 8/20/41 and as Special Agent 1/4/43. He has had extensive experience in number of field offices and has been a resident agent. He was assigned to New York Office from 11/17/46 until his assignment to Bureau as Supervisor on 2/11/52. Comments on his work in New York reveal he displayed outstanding initiative, resourcefulness, force and aggressiveness. He made a fine personal impression and was thorough and competent in handling complex and detailed investigations. He handled several major investigations including that of Owen Lattimore and several of the major Sovme cases. He was commended 4/10/51 for exemplary handling of his duties in espionage case involving Julius Rosenberg. Initially as Bureau Supervisor he handled supervision of investigations involving Soviet officials, couriers and their contacts. He made highly effective adjustment as Bureau Supervisor and since 3/16/53 has been assigned as Supervisor in Sovme Unit. By letter 6/11/54 he was censured for inclusion of erroneous statement in summary memorandum prepared regarding suspected espionage at Fort Monmouth. He was censured by letter 3/15/55 for failing to secure explanations from field for error he detected in report. Tully has accepted this criticism with an excellent attitude.

RE: REALLOCATION

By memorandum dated 9-7-55 Mr. Branigan recommended that SA Tully be reallocated to GS-14 in view of his position as Supervisor in Charge in the SOVME Unit of Espionage Section with 7 Agent supervisors under his supervision. As Supervisor in Charge, Tully had demonstrated his ability to organize and plan work assignments to see that objectives were accomplished. He had an excellent background in Soviet Espionage work, was intelligent and had excellent capabilities for further development and advancement. Mr. Belmont and Mr. Boardman concurred.

A review of his personnel file reflected he entered on duty as a Clerk on 8-20-41 and as a Special Agent 1-4-43. He was reallocated to Grade GS-12 on 11-16-47 and to Grade 13 on 3-29-53. He was assigned as a Supervisor in Domestic Intelligence Division on 2-11-52 and Supervisor in Charge on 7-1-55. He has received two letters of COMMENDATION for his work performance and was CENSURED and SUSPENDED for three days on 7-12-43 for loss of Bureau property and on 6-11-54 was CENSURED for inclusion of erroneous statement in summary memorandum prepared regarding suspected espionage at Fort Monmouth.

His daily average overtime for February, 1955, was 1 hour 58 minutes and for March, 1955 was 2 hours.

RECORDED-145

By letter dated 3-15-55 he was CENSURED for his failure to comply with existing Bureau regulations in connection with his supervision of the Internal Security investigation involving [redacted]. It had been observed that after he had reviewed a report submitted by the Milwaukee Division under date of 1-20-55 he instructed that office to include the name Earl Caldwell in the title of the next report to be submitted by that division inasmuch as the report in question indicated that it was an alias of the subject. When the Milwaukee Division advised by letter that the name Earl Caldwell was erroneously reported and amended pages were submitted to correct that mistake he should have seen to it that explanations from personnel responsible for that error were obtained, together with recommendations for appropriate administrative action as required by existing Bureau instructions.

MEMORANDUM FOR MR. TOLSON

Today I saw Special Agent E. R. Tully, who is Supervisor-in-Charge of one of the units in the Espionage Section. He called to express his appreciation for his recent reallocation to GS-14. Mr. Tully makes a good personal appearance.

I discussed with Mr. Tully the responsibilities of his position and the imperative need for a toughening up in administration of work in order that the Bureau may avoid becoming the subject of any public criticism. I pointed out particularly that stress must be made upon accuracy and thoroughness in all of our work.

By letter dated 9-22-55 SA Tully was advised of his promotion to \$10,320 per annum in Grade GS-14, effective 9-25-55. He was reallocated to this grade in view of his position as Supervisor in Charge of the SOVME Unit of the Espionage Section, in which capacity he has 7 Agent Supervisors under his supervision, in addition to 8 clerical employees. The following is a brief and concise summary of his activities prepared for the Director's use, in the event the Director should see him.

On 2-11-52 SA Tully was transferred to the Domestic Intelligence Division and since 6-14-55 he has been serving as Supervisor in Charge of the SOVME Unit of the Espionage Section. His superior has advised that as Supervisor in Charge, SA Tully has demonstrated his ability to organize and plan work assignments to see that objectives were accomplished. He is described as being intelligent, having an excellent background in Soviet Espionage work, and having excellent capabilities for further development and advancement.

RECORDED-137

67-211900-162

By letter dated 3-15-55 he was CENSURED for his failure to comply with existing Bureau regulations in connection with his supervision of the Internal Security investigation involving [redacted]. It was noted after he reviewed a report submitted by the Milwaukee Office under date of 1-20-55 he instructed that office to include the name Earl Caldwell in the title of the next report to be submitted by that office inasmuch as the report in question indicated that it was an alias of the subject. However, when the Milwaukee Office advised by letter of 2-11-55, that the name of Earl Caldwell was erroneously reported and amended pages were submitted to correct this mistake he should have seen to it that explanations from personnel responsible for this error were obtained together with recommendation for appropriate administrative action as required by existing Bureau regulations. Consideration had been given his explanation that because the error committed by the Milwaukee Division was relatively minor and no dissemination of the report had been made additional correspondence was not necessary; however, this did not justify his failure to abide by regulations.

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

- Rate items as follows:
- + Outstanding (exceeding excellent and deserving special commendation).
 - ✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
 - Unsatisfactory.
 - O No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out on the reverse of form FD-185.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out on the reverse of form FD-185.

- (1) Personal appearance.
- (2) Personality and effectiveness of his personal contacts.
- (3) Attitude (including dependability, cooperativeness, loyalty, enthusiasm, amenability and willingness to equitably share work load).
- (4) Physical fitness (including health, energy, stamina).
- (5) Resourcefulness and ingenuity.
- (6) Forcefulness and aggressiveness as required.
- (7) Judgment, including common sense, ability to arrive at proper conclusions; ability to define objectives.
- (8) Initiative and the taking of appropriate action on own responsibility.
- (9) Planning ability and its application to the work.
- (10) Accuracy and attention to pertinent detail.
- (11) Industry, including energetic consistent application to duties.
- (12) Productivity, including amount of acceptable work produced and rate of progress on or completion of assignments. Also consider adherence to deadlines unless failure to meet is attributable to causes beyond employee's control.
- (13) Knowledge of duties, instructions, rules and regulations, including readiness of comprehension and 'know how' of application.
- (14) Technical or mechanical skills.
- (15) Investigative ability and results:
 - (a) Internal security cases
 - (b) Criminal or general investigative cases
 - (c) Fugitive cases
 - (d) Applicant cases
 - (e) Accounting cases
- (16) Physical surveillance ability.

A. Specify general nature of assignment during most of rating period (such as security, criminal, applicant squad, or as resident Agent, supervisor, instructor, etc.): Supervisor in Charge of Unit; Supervisor - security matters.

Explanation

negative

The above-captioned Special Agent Supervisor, whose name appears on the ASAC Advancement List, was interviewed by me on 4/11/56.

BACKGROUND:*A NATIVE OF*

Agent Tully is an Agent from New York. He is 37 years of age, is married and has three children. He was assigned to a total of five field offices prior to coming to the Seat of Government on 2/11/52. During his field experience he served as a resident Agent in two different localities. During his entire career he has had approximately three years of criminal experience, the last ten years have been devoted exclusively to security-type work. His supervisory experience at the Seat of Government has been entirely within the Domestic Intelligence Division Espionage Section, but he has worked on two different desks within the Section. His entire Bureau record has been substantial. During the past three years he has received two letters of censure.

RESULTS OF INTERVIEW:

67-211900-165

Tully makes an excellent personal appearance, and appears to be above average in every respect, and should make a very capable Bureau representative in whatever assignment he is given, particularly if it involves meeting the public. In his capacity as Supervisor of the SOVME Unit he has seven other Supervisors and eight clerks under his supervision. He is obviously very enthusiastic and interested in his assignment. He is anxious to progress as far in the Bureau as he has the capability. While he is very much interested in his present assignment, he is completely available and desires to advance either in the field or at the Seat of Government, depending upon whatever assignment the Bureau considers him best qualified to fill. When questioned concerning his criminal experience, he stated that he did have good experience for the first three years he was in the Bureau; states he does not feel he would have any difficulty in becoming acclimated if placed in a field supervisory assignment, but recognizes it would take him a few months to really get back in the swing of field administration in criminal work.

Memorandum to Mr. Tolson
RE: EDWIN RAYMOND TULLY

Tully had two suggestions which are believed to be very worth while and should be given consideration:

- (1) A Supervisor who has devoted the majority of his time to security work might find it advantageous to be given a supervisory assignment in the Investigative Division for a reasonable period of time prior to being transferred to the field in a supervisory capacity. Likewise, a Supervisor in the Investigative Division should be given an assignment in the Domestic Intelligence Division before going to the field. He feels that this would enable the employee in question to again become familiar with the work he has had the least to do with over the past several years.
- (2) Tully feels that some consideration might be given to giving those employees selected to go to the field in an administrative capacity some type of public speaking experience. In this regard I think consideration might be given to having those employees on the ASAC Availability List given speaking assignments before small groups in this area as part of their training for the ASAC job.

CONCLUSION:

This man is decidedly above average. He should be able to give a good account of himself as a field administrator and should be given early consideration for an ASAC assignment. ~ Yes. K.

It is believed that consideration should be given to Tully's suggestions enumerated above, as they seem to have considerable merit.

ORGANIZATION - ESPIONAGE SECTION
ASSIGNMENT OF PERSONNEL

By letters dated June 27, 1956, Supervisors Harold E. Welborn and Edwin R. Tully were designated as Assistant Special Agents in Charge and assigned to field service. Both Agents Tully and Welborn were Supervisors in Charge in the Espionage Section.

Edwin R. Tully

It is my recommendation that SA Anthony P. Litrento be designated to replace Agent Tully as Supervisor in Charge of the Sovme Unit of the Espionage Section. Agent Litrento is presently in GS-14 and has been assigned as a Supervisor in the Sovme Unit. He has been acting as the Supervisor in Charge in the absence of Agent Tully. Agent Litrento is an expert in the Soviet field and has an exceptional knowledge of this particular type of work. Mr. Tolson spoke with Mr. Litrento in June, 1955, and was of the opinion that he should be borne in mind for positions of even more responsibility in security work.

It is my recommendation that SA W. Raymond Wannall be designated as the Supervisor in Charge of the Nationality Unit in the Espionage Section to replace Mr. Welborn. Mr. Wannall is presently in Grade GS-14 and was formerly Supervisor in Charge of this Unit. Following the special inspection of the New York Office in the Spring of 1955, it was decided that there was a need for greater coordination of the Intensification Program at the Seat of Government. SA Wannall was designated as the coordinator for this program in the Espionage Section. In this regard he has done a commendable job in instituting controls for surveillance and in following through on the Bureau's instructions. In view of the number of important matters presently being handled by the Nationality Unit in the Espionage Section, it is believed that the services of Wannall can best be utilized as Supervisor in Charge of that Unit.

To replace Agent Wannall as coordinator of the Intensification Program it is recommended that Agent Rex I. Shroder be designated. Agent Shroder has had considerable experience in Soviet espionage investigations. While he has not worked directly on the Intensification Program since his assignment in the Espionage Section, he is considered an above average supervisor and it is felt that he can handle the job of coordinator.

We, of course, will need replacements for Agents Shroder and Litrento and in view of the volume of work presently being handled in the Espionage Section, such replacements should be expedited.

Pursuant to the approval of the Director, ASAC Hargett, Boston, and ASAC Moore, Denver, have been ordered to the Training and Inspection Division, thus creating vacancies in those offices. In addition, ASAC Fauntleroy, has been removed as ASAC of the Charlotte Office and transferred on general assignment. In view of the above, the following personnel changes are being recommended.

I. It is recommended that ASAC Aubrey S. Brent, Miami Division, be designated ASAC of the Boston Division with no change in grade or salary.

Mr. Brent entered on duty December 2, 1940, and is presently in grade GS-14, \$10,535 per annum. He is 40 years of age, married, and has three children. He has a Bachelor of Laws Degree, is a member of the District of Columbia Bar, and a member of the Masonic Order. He served as ASAC of the Atlanta Division from June 15, 1953, to July 25, 1955, when he assumed his duties at Miami. His services have been very satisfactory. No administrative action has been taken against him during 1956, and the last inspection of the Miami Office in December, 1955, reflected that he was performing his duties in a highly satisfactory manner. The office was found to be in good condition.

II. I recommend that Special Agent Supervisor Frederick A. Frohbose, Jr., of the Investigative Division be designated ASAC of the Miami Division with no change in grade or salary.

Mr. Frobose entered on duty March 3, 1941, in a clerical capacity and was appointed Special Agent January 4, 1943. He is presently in grade GS-14, \$10,320 per annum; is 37 years of age, married, and has two children. He attended college and law school. His over-all service record may be considered above average. Mr. Frobose is presently assigned to the Criminal Section, Investigative Division, as the Supervisor in Charge of the Deserter-Fugitive Unit. From July 7, 1948, to March 20, 1950, he served as ASAC at Anchorage in a satisfactory manner.

Mr. Frobose's name appears on top of the current AEAC Advancement List. He was interviewed by Inspector Nease on March 14, 1963, and Lt. ~~WEN~~

advised that he made an above average personal appearance, conversed well, was straightforward, and gave the impression of sincerity. He appeared to be enthusiastic and well informed concerning his work. He advised Mr. Nease that he desired to advance as far as he could in the Bureau's service and expressed a particular desire to eventually become an SAC. Mr. Nease concluded that Mr. Frohbose presented somewhat above average prospects for advancement to the position of ASAC and thought that he could do a commendable job in this regard at the present time. No administrative action has been taken against Mr. Frohbose during 1956.

III. I recommend that ASAC ~~Allan Gillies~~, Pittsburgh Division, be designated ASAC of the Denver Division with no change in grade or salary.

Mr. Gillies entered on duty December 16, 1940, and is presently in grade GS-14, \$10,535 per annum. He is 42 years of age, married, and has two children. He has a Bachelor of Laws Degree and is a member of the California State and Federal Bars. Mr. Gillies served as ASAC at Buffalo from November 5, 1953, until July 30, 1954, when he was designated ASAC at Pittsburgh. His over-all record may be considered satisfactory.

As a result of an inspection of the Pittsburgh Office in June, 1955, Mr. Gillies was censured and placed on probation for a number of weaknesses found in matters under his direct supervision. He was told it would be necessary to tighten up his supervision and correct the various deficiencies. It appears that he was able to correct the numerous delinquencies as an inspection of the Pittsburgh Office in August, 1955, reflected that he was handling his duties in a satisfactory manner and a noticeable improvement was found during the inspection. The office at that time was found to be in better than average condition in all respects. He was removed from probation August 16, 1955. Mr. Gillies has been recommended for additional responsibility by members of the inspection staff and by his various SACs. He has received one letter of censure in 1956, for approving a report containing a substantive error.

Mr. Gillies is considered to be an excellent contact man. His SACs have pointed out that he presents an excellent personal appearance and is an excellent speaker. The Director saw Mr. Gillies on September 15, 1953; October 20, 1953; and January 18, 1954. On each occasion the Director noted that Mr. Gillies made a good personal appearance and seemed to be enthusiastic about his work. The Director said he believed Mr. Gillies had good possibilities for advancement in the Bureau. On November 3, 1953, you also saw Mr. Gillies and stated that he impressed you as an exceptionally fine Bureau representative. The Denver Office is considerably smaller than the Pittsburgh Office. As of May 31, 1956, the Denver

Office had 1084 cases with 56 investigative personnel while Pittsburgh had 1257 cases with 87 investigative personnel. I feel that ASAC Gillies is a good choice for assignment to Denver at this time.

IV. I recommend that ASAC Frank P. Griffee, Oklahoma City, be designated ASAC at Pittsburgh with no change in grade or salary.

Mr. Griffee entered on duty December 2, 1940, and is presently in grade GS-14, \$10,320 per annum. He is 44 years of age, married, and has four children. He has a Bachelor of Laws Degree and is a member of the Nebraska State and Federal Bars. He has been ASAC at Oklahoma City since July 14, 1953, and his services are considered satisfactory. No administrative action has been taken against him during 1953. However, during 1955, it was necessary for the Bureau to censure him on a number of occasions for approving reports with substantive errors. It appears that he has now tightened his supervision as no substantive errors have been charged against him during the past six months.

The Oklahoma City Office was inspected in November, 1955, and was found to be in good condition. The Inspector recommended that Mr. Griffee be considered for additional responsibility such as ASAC of a larger office or SAC of a smaller office. In addition, his Special Agent in Charge is of the opinion that Mr. Griffee has good potential for further advancement in the Bureau. The Director last saw Mr. Griffee on December 1, 1953, and stated that he made a generally good appearance. The Director discussed a number of field office problems with Mr. Griffee at that time.

V. I recommend that Special Agent Supervisor Edwin R. Tully of the Domestic Intelligence Division be designated ASAC of the Oklahoma City Division with no change in grade or salary.

Mr. Tully entered on duty August 20, 1941, in a clerical capacity and was designated Special Agent January 4, 1943. He is presently in grade GS-14, \$10,320 per annum; is 36 years of age, married, and has three children. He has a Bachelor of Science Degree and attended law school. His over-all service record may be considered above average. He is 5'11" in height.

Inspector Nease interviewed Mr. Tully on April 11, 1956, and stated that he made an excellent personal appearance and appeared to be above average in every respect. Mr. Nease considered him a very capable Bureau representative and decidedly above average. He recommended that early consideration be given to this recommendation and the Director approved.

VI. I recommend that Special Agent Supervisor Harold E. Welborn of the Domestic Intelligence Division be designated ASAC of the Charlotte Division with no change in grade or salary.

Mr. Welborn entered on duty September 8, 1942, in a clerical capacity and was appointed Special Agent June 7, 1943. He is presently in grade GS-14, \$10,320 per annum; is 42 years of age, married, and has two children. He has Bachelor and Master of Science Degrees. His over-all service record is very definitely above average.

Inspector Nease interviewed Mr. Welborn on April 9, 1956, and stated that he made an excellent personal appearance, carried on a conversation in a most favorable manner, appeared to be above average in intelligence, and was alert and enthusiastic. Mr. Nease felt that Welborn had the necessary aggressiveness and enthusiasm to develop into an above average field administrator.

MEMORANDUM FOR MR. TOLSON

Yesterday, I saw Special Agent E. R. Tully, of the Domestic Intelligence Division, who has recently been designated as Assistant Special Agent in Charge of the Oklahoma City Office. Mr. Tully makes a good personal appearance, seems to be interested in his work, and I would rate him above average.

I discussed with Mr. Tully some of the general problems facing the Bureau in the operations of the field and in particular the problems of our Oklahoma City Field Division.

I called attention to the necessity for keeping the delinquency in any class of cases below twenty per cent. I also called attention to the importance of maintaining our accomplishments and pointed out that the Oklahoma City Field Division during the first eleven months of the fiscal year, 1956, had dropped materially in all accomplishments, except in convictions; that the time to put the pressure on in this phase of the Bureau's work is at the beginning of the fiscal year.

I also mentioned to Mr. Tully the need for maintaining a firm and vigorous administration of the Oklahoma City Field Division, but at the same time a fair administration of the same.

By letter dated June 27, 1956, Special Agent Tully was designated as Assistant Special Agent in Charge at Oklahoma City, Oklahoma. He is absent from the Bureau on his regularly scheduled annual leave, which will end on Friday, July 6, and he will report back to Bureau on Monday, July 9.

I called Mr. Tully at Bethany Beach, Delaware, where he is vacationing with his family, on evening of June 27. I informed him of his transfer. Tully stated he is anxious to depart as soon as possible. He anticipates it will require one week to clear up his work, consult with Bureau officials, and make personal arrangements.

RECOMMENDATION:

It is recommended that since Mr. Tully is on his scheduled annual leave, he complete his leave at this time. He will then report to Bureau on July 9 and would depart for Oklahoma City on July 13, arriving there on July 16.

If you agree, I will instruct Mr. Tully to complete his annual leave prior to returning.

SA Tully advised this morning that [redacted] he had placed his wife in George Washington Hospital last night and it was the opinion of the attending physician, Dr. William Leonard that [redacted] Mrs. Tully is progressing satisfactorily at this point.

Mr. Tully stated that his wife will probably remain in the hospital for two or three days. Flowers have been sent by the Espionage Section.

Agent Tully is on transfer to the Oklahoma City Office as Assistant Special Agent in Charge and is scheduled to depart close of business July 13. At this time he is unable to estimate whether this will complicate the problem of his departure since the date of recovery of Mrs. Tully cannot be foreseen. We will keep in touch with Mr. Tully and advise in the event there will be any necessary change in the departure date.

NARRATIVE COMMENTS

Note: The regulations require that OUTSTANDING ratings be supported by a statement in writing setting forth IN DETAIL the performance IN EVERY ASPECT and the REASONS for considering each worthy of SPECIAL COMMENDATION.
UNSATISFACTORY ratings must be supported by a statement in writing stating (1) WHEREIN the performance is unsatisfactory, (2) the facts of the (90 day) PRIOR WARNING, and (3) the efforts made AFTER THE WARNING TO HELP the employee bring his performance up to a satisfactory level.

PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee EDWIN R. TULLY Title Special Agent, GS-14
April 1, 1956 to July 13, 1956

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.
 Rate items as follows:

- Outstanding (exceeding excellent and deserving special commendation).
- Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
- No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out on the reverse of form FD-185.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out on the reverse of form FD-185.

- (1) Personal appearance.
- (2) Personality and effectiveness of his personal contacts.
- (3) Attitude (including dependability, cooperativeness, loyalty, enthusiasm, amenability and willingness to equitably share work load).

**EDWIN R. TULLY
SPECIAL AGENT, GS-14**

This is a transfer performance rating on the departure of SA Tully from the Seat of Government en route to the Oklahoma City Office where he is to assume the duties of Assistant Special Agent in Charge.

Agent Tully has continued to function as the Supervisor in Charge of the Sovme Unit of the Espionage Section, with seven other Agent Supervisors under his supervision. My comments in his annual performance rating are still applicable. Tully is thoroughly experienced in the field of Soviet intelligence and has made valuable contributions to the work of the Unit and Section. He has demonstrated considerable administrative and organizational ability in planning and directing the operations of the Unit which has under its supervision some of the most complex phases of the work of the Bureau.

From May 7 through May 15, 1956, Agent Tully attended a Special Administrative School. He has done an excellent job and is entitled to a rating of Satisfactory.

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.
Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
- ✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
- O No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus'; and in addition, of course, supporting comments must comply with the requirements as set out on the reverse of form FD-185:

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out on the reverse of form FD-185.

- (1) Personal appearance.
- (2) Personality and effectiveness of his personal contacts.
- (3) Attitude (including dependability, cooperativeness; loyalty, enthusiasm, amenability and willingness to equitably share work load).

- (13) Knowledge of duties, instructions, rules and regulations, including readiness of comprehension and 'know how' of application.
- (14) Technical or mechanical skills.

EDWIN R. TULLY
ASSISTANT SPECIAL AGENT IN CHARGE
SIXTY DAY PERFORMANCE RATING

Mr. Tully assumed the duties as Assistant Special Agent in Charge of the Oklahoma City Office July 17, 1956, following his transfer of June 27, 1956, from the Seat of Government.

This employee presents a very neat appearance and possesses a pleasing personality. He is amenable to constructive suggestions, intelligent and aggressive. He is affable, well liked by his fellow employees and commands the respect of his subordinates. He has exhibited above average initiative in assuming responsibilities during my absence from the headquarters city. He produces a very good volume of work, which requires no supervision. He is conscientious, loyal and dependable. During the rating period favorable comments have been received regarding his appearance on three separate occasions as a representative of the Bureau before various civic organizations. His progress in the field has exceeded my expectations. He is in need of additional field experience since he has been assigned to the Seat of Government for a considerable length of time. He has recognized this need, and accordingly he is making every effort to gain such experience. He is being afforded an opportunity to develop through practical experience in every phase of the administration of the office. He definitely possesses both supervisory and administrative ability. This employee will have no difficulty whatsoever in acclimating himself to this particular section of the country. He uses good, sound judgment.

I am of the opinion that ASAC Tully will continue to show rapid improvement and that greater things can be expected of him in the Bureau.

SAC BRYCE: Mr. Tully assumed the duties of ASAC of the Oklahoma City Office on July 17, 1956, following his transfer from the Seat of Government. He presents a very neat appearance, possesses a pleasing personality and is amenable to constructive suggestions. He is intelligent, aggressive, conscientious and loyal. His progress in the field has been very satisfactory. He has acclimated himself to the southwest more rapidly than the average employee who has never served in this particular section of the country. Numerous favorable comments have been received regarding his appearance as a speaker before various civic and service clubs. He handles a very good volume of work, which requires no supervision. He has taken advantage of the opportunity to gain field experience, which has helped him considerably in his official assignment. He possesses both supervisory and administrative ability. I am of the opinion that he will show rapid improvement in every respect and that greater things may be expected of him.

Rating: Satisfactory

INSPECTOR TEAGUE: Mr. Tully is a first-office ASAC of only several (Mr. J. H. Gale) months experience. He makes an excellent personal appearance, is loyal, industrious and aggressive. He has adapted himself well to his first assignment as ASAC and is making good progress. No substantive errors were found on the ASAC's desk during the period which he has held this position. It is believed that with additional experience he will definitely be capable of handling a larger office as ASAC. His average voluntary overtime for the last 4 months was 2 hours, 57 minutes per day compared to office average for the past 6 months of 2 hours, 27 minutes per day. He is SAC material.

RECOMMENDATION: No action is necessary on this write-up as similar OKLAHOMA CITY INSPECTION information was included in memorandum 11/5/56 from Tamm to Mr. Tolson dated 11-19-56 DAB/ms reporting inspection results.

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

Rate items as follows:

 Outstanding (exceeding excellent and deserving of special commendation). Excellent. Satisfactory (good or very good). Unsatisfactory. No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

1. "Outstanding" adjective rating requires (A) that all rated elements be "+" and (B) that each and every rated element be factually justified by narrative detail on reverse of Form FD-185.

2. "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and checklist and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.

A. Any element rated "Unsatisfactory" must be supported by narrative comments.

B. An "official" adjective rating of "Unsatisfactory" must comply with the requirements described on the reverse of form FD-185.

Numerous favorable comments have been received pertaining to his appearances as a Bureau representative before various civic groups throughout the field division.

He is amenable to constructive suggestions. He is intelligent and aggressive, and he exercises sufficient force and initiative to protect the Bureau's interests at all times. He is conscientious, loyal and dependable.

✓ He produces a very large volume of work, which requires no supervision. He has exercised extremely good judgment in making decisions of an official nature. 2. Experience and Ability as an Inspector's Aide

ASAC Tully assisted in the Albuquerque and Denver inspections November 26 - December 14, 1956. He was assigned as Number One man and was assigned to the inspection of physical condition and maintenance, pending investigative work, pending stenographic and typing work, stenographic, typing, teletype and radio examinations, FBI applicants, contacts program and other miscellaneous assignments. This was ASAC Tully's first inspection assignment. The

Inspector commented, "he adapted himself readily to inspection procedures; has a sound over-all knowledge of field office administration and Bureau policy. He did a competent job as Number One man and directed the activities of the Aides in a capable fashion. He is resourceful, exercises initiative, and his performance was entirely satisfactory."

3. Participation in Informant Programs

He assists in the administration of the informant programs. His ability in this respect is very satisfactory.

4. Testifying Experience and Ability

ASAC Tully has testified on numerous occasions in the past in U. S. District Courts, before Federal Grand Juries and before U. S. Commissioners. He has not had an opportunity to testify in court during his assignment in this field division. I am convinced, however, that he would make an excellent witness.

7. Police Instruction

ASAC Tully has appeared as an instructor at two separate police training schools, one at the Oklahoma City Police Department and one at the Midwest City Police Department. Numerous favorable comments have been received pertaining to his ability in this respect.

This has been indicated by the manner in which he has marshaled his assignments in this office to get best results from efforts expended. He has proven himself a leader. He is interested in administrative advancement in the Bureau, and he is available for assignment in any section of the country.

Office Memorandum • UNITED STATES GOVERNMENT

TO Director, FBI

DATE: May 27, 1957

FROM : SAC Oklahoma City (9-899)

SUBJECT: wa.
EXTORTION: JDA VICTIM

b6
b7c

On 5-16-57, the Chief of Police at Claremore, Oklahoma, advised that the Victim had received an unsigned, typewritten letter, postmarked Claremore, Oklahoma, 5-15-57, demanding \$5000.00, accompanied by a threat to kill one of Victim's sons. The letter indicated the money was to be placed in a paper sack and thrown out in the highway near the Will Rogers Memorial at 3:00 p.m., Sunday, 5-19-57.

The purpose of this letter is to recommend that the Bureau send a letter of commendation to this office in this case with carbon copies for the Agents who participated in the payoff.

The case is assigned to SA CLAIR B. EMPEY, who did an excellent job in coordinating the police assistance and in locating suitable garage and home facilities in the area of the payoff so that the Agents and Police officers were successfully hidden, yet in a position to see the payoff area. JUN 19 1968 SA JESSE L. ORR is also primarily responsible for setting up the payoff area and diagramming the area so well that each officer had a clear picture.

The payoff was covered by SAs JESSE L. ORR, CLAIR B. EMPEY, BENNIE C. GARREN, TROY H. GIST, and MAX L. GREENSTREET of the Tulsa Resident Agency, and SAs WILSON McCULLY and CHARLES F. BULLARD, under the direction of ASAC E. R. TULLY!

As the Bureau knows, the Subject, a 14-year-old boy, appeared at the payoff area at about 3:15 p.m. and after checking the area carefully, grabbed the package, only to be grabbed by the Agents before he got very far.

I have sent letters of appreciation to the Police officers involved and, while I do not feel that individual letters of commendation need be sent to the Agents mentioned herein, I do feel that the case resolved in such a satisfactory and businesslike fashion that a letter of commendation be directed to the office with copies for the personnel files of the Agents mentioned herein.

The above ASAC, who is presently attending In-Service Training, was interviewed by me on 10/4/57. He is a first-office ASAC, having been made ASAC at Oklahoma City on 7/16/56. Prior to that he served as a Supervisor in the Domestic Intelligence Division. He has had rather extensive field experience.

Mr. Tully makes an excellent personal appearance. His intelligence is apparent. He seems to have a good grasp of his duties and is fully aware of the problems confronting him as a Bureau administrator. According to his file, he has made very good progress as an ASAC and it is believed this man is definitely SAC material. From all indications he is an above average ASAC at this time.

INSPECTOR FLETCHER: ASAC Tully is serving as a first office ASAC at Oklahoma City. He has had about 16 months' service as ASAC and he gives every impression of being mature in action and manner, confident and assured in his approaches, practical, intelligent, and to be a person of sound judgment. Bertram Wyand, an SAC contact and a former Special Agent, advised that ASAC Tully has made favorable impressions in his contacts in Oklahoma; that he is very effective as a Bureau speaker. Everything indicated that he had the confidence and respect of the assigned personnel.

By reason of the continued illness of SAC Delf A. Bryce during the course of the inspection, the comments of SAC Bryce concerning the qualifications of ASAC Tully were not obtained; however, Tully impressed as being SAC material capable at this time of discharging the duties and responsibilities of an SAC in offices equal in size to Oklahoma City.

OC file 87-3237

INSPECTOR FLETCHER: This pending case, Oklahoma City origin, was opened on June 28, 1956. This case was originally assigned to Agent M. WHITE MITCHELL, was reassigned to Agent HENRY L. McCONNELL on January 10, 1957, and then reassigned to Agent CLEMENT J. HOOD August 14, 1957. A review of this case reflects inexcusable delays in reporting. While this case was assigned to Agent MITCHELL reports were submitted on August 8, 1956, November 5, 1956, and January 8, 1957. On January 10, 1957, this case was then reassigned to Agent HENRY L. McCONNELL. On August 14, 1957, the case was then reassigned to Agent HOOD. During the period in which this case was assigned to Agent McCONNELL no reports were submitted. Since August 14, 1957, Agent HOOD has not submitted a report. The last report submitted in this case was on January 8, 1957.

While a review of this case was made during the inspection it was noted that a closing report was in dictation reflecting a conviction of the Subject involved in this case; however, there has been excessive delay in reporting this information and, in fact, no report in this case has been submitted since January 8, 1957, and comments are requested from Agent McCONNELL, Agent HOOD, ASAC TULLY and SAC BRYCE.

AGENT McCONNELL: During the time this case was assigned to me it received proper investigative attention and the subject was identified. Prior to that time it was an Unsub case. During this time Agent HOOD was assisting with the case. In addition to the check angle it developed an ITSMV angle as subject took a 1951 Plymouth from California to Oklahoma. Subject claimed he had owner's permission. By airtel 3-19-57, the Bureau and interested offices were advised that Subject admitted the check violation but denied the ITSMV case. I was waiting until the ITSMV angle was clarified before writing a report. I regret this delay in writing the report.

AGENT HOOD: This case was reassigned to me on August 14, 1957. I had worked on it previously with SA McCONNELL. I was attempting to write a report but before doing so wished to clarify subject's statement that the 1951 Plymouth had been stolen by one [redacted]. The United States Attorney indicated he would authorize against [redacted] on the ITSMV charge if we could find [redacted] and locate the stolen car. Thereafter the Little Rock specials and four consecutive bank robberies brought about a delay in investigation and a further delay in reporting. Since then a separate ITSMV case has been opened on [redacted] and instant case is being closed successfully, the subject receiving a one year sentence. I regret the delay in this matter.

ASAC TULLY: I remember this case well and feel that from an investigative standpoint it was resolved successfully in that the subject has been convicted. The case was followed by me on the monthly file review and I recall being advised that the report was being delayed so that we could wind it up in one report as soon as the ITSMV angle was resolved, WEAVER located and the 1951 Plymouth located. The special in Little Rock, then a series of bank robberies further tied up the office and delayed reporting in this case. I regret this very much and will see that it does not happen again.

TO : Mr. Mohr

DATE: 2/6/58

FROM : H. L. Edwards *H. L. Edwards*

SUBJECT: BUREAU AUTOMOBILE ACCIDENT
 CAR NO. R-123; 1956 Ford
 Date 12/19/57
 Damages \$203.94
 Driver SA Robert D. Oswalt
 Oklahoma City Division

About 1:20 p. m. on 12/19/57 while operating Bucar on official business
 SA Oswalt was involved in an accident near Yukon, Oklahoma.

SA Oswalt advised he was proceeding west on U. S. Highway 66 enroute from Oklahoma City to Clinton, Oklahoma, where he is assigned as resident agent. About eight-tenths of a mile west of Yukon he momentarily fell asleep and Bucar struck a rural mailbox set upon a 3" steel pipe anchored in an automobile wheel. He was traveling about 55 to 60 mph in a 65 mph speed zone. SA Oswalt states on previous night 12/18/57, he had returned to his hotel at approximately 11:20 p. m. after working in the office. During the night he became ill and was up several times due to nausea and vomiting and on 12/19/57 he was extremely tired, nervous, feverish and ached in the joints of his legs. About noon on 12/19/57 he informed ASAC Tully that he was possibly coming down with the flu and requested permission to return to his home in Clinton approximately 90 miles from Oklahoma City. ASAC Tully offered to have someone drive him home but Oswalt did not feel that this was necessary as he had taken no medication and had never previously had fainting or drowsy spells. (It was subsequently determined that SA Oswalt did not consult the doctor in regard to his illness; however, he was on sick leave on 12/20/57. He returned to his home on 12/19/57 after the accident and went to bed where he slept and rested for 18 straight hours and thereafter did not feel the need for medical attention.)

76 920-142
 Accident investigated by Oklahoma Highway Patrol and report of the investigating officer reflects Bucar dropped off the highway, skidded 63', hit the mailbox and then skidded 132' and came to a stop on the highway. Under "driver's actions" in the police report "exceeded safe speed" is indicated.

There were no witnesses. SA Oswalt's insurer has paid for damages to mailbox in the amount of \$10. There were no personal injuries.

BUREAU RECORD:

SA Oswalt entered on duty 10/12/42 and is in grade GS-13, \$9420. Services satisfactory, rated Excellent on 1957 annual performance rating. He has not previously been involved in Bucar accident for which he was held responsible.

DEFICIENCIES IN INVESTIGATIVE REPORT:

Original report dated 12/30/57 in this matter was prepared by SA Byron E. McFall and approved by ASAC Tully who was acting as SAC. This report was incomplete and it was apparent the entire matter was handled in a most careless manner in Oklahoma City. Bureau by memorandum 1/21/58 instructed that amended pages be submitted and called a number of delinquencies to Oklahoma City's attention. The report contained no information concerning the identity of the owner of the mailbox, the damage to the mailbox or whether the agent was covered by insurance. Furthermore, the results of the police investigation were not set out in the report and the name of the operator of the Bucar was not set out in the title although all of this information is required by existing regulations. Oklahoma City has now submitted a revised report dated 1/29/58.

SA McFall has explained that he did contact the owner of the mailbox and had discussions with SA Oswalt regarding his insurance coverage and the fact that his insurance company was handling the claim for damage to the mailbox; however, he did not include this information in the report. He noted that the police report was not set up in such a manner that it could be copied into his investigative report, thus it was not included. He inadvertently failed to include SA Oswalt's name in the title of the case.

Bureau memorandum of 1/21/58 also requested that Oklahoma City furnish by cover memorandum information concerning the periods SA Oswalt worked on 12/18/57, the day before the accident as reflected by official records; whether SA Oswalt had consulted a doctor in regard to his illness and ASAC Tully's comments concerning his discussion with SA Oswalt before he left to return to the resident agency. This information has been received and substantiates information furnished by SA Oswalt.

ASAC Tully, who was acting as SAC, originally recommended that the damages to Bucar be paid by the Bureau "unless Oswalt's explanation and attending facts indicate to the Bureau that he was negligent or careless in his operation of the car." This recommendation was certainly most inadequate and was called to ASAC Tully's attention. It was further noted that the communication containing this recommendation had been prepared by the reporting agent. It has been pointed out to

ASAC Tully that this is a highly undesirable procedure and should be discontinued immediately and that such communications should be prepared by the SAC, ASAC or supervisor handling these matters.

RECOMMENDATIONS OF SAC:

ASAC Tully, acting as SAC, has now advised that after reconsidering this matter it is his decision that SA Oswalt used poor judgment in driving while both overtired and slightly ill and therefore recommended that he pay for the damages to the Bucar. He recommended no administrative action be taken against SA Oswalt as no one knows better than he does now that it would have been much better not to drive under the circumstances.

ASAC Tully recommended that SA Byron E. McFall be censured for failing to include in his investigative report information relative to the owner of the mailbox and damage to the mailbox, as well as information concerning SA Oswalt's insurance and failing to set out in the report the results of the police investigation. ASAC Tully also recommended that he be censured for approving this report without noting these delinquencies.

RECOMMENDATIONS:

1. That SA Oswalt be held responsible for this accident and required to pay cost of repairs to Bucar.

2. SA Oswalt exercised poor judgment in driving Bucar when he was tired and not feeling well and thereafter aggravated his original mistake by driving at an excessive rate of speed as indicated by the police report. It is therefore recommended that SA Oswalt be censured.

Office Memorandum • UNITED STATES GOVERNMENT

TO : DIRECTOR

DATE: JAN. 29, 1958

FROM : SAC, OKLAHOMA CITY

(66-2225)

SUBJECT: ACCIDENT INVOLVING BUCAR #R-123
1956 Ford, Dec. 19, 1957
SA ROBERT D. OSWALT, Driver
Oklahoma City Division

ReBulet Jan. 21, 1958.

Enclosed are copies of the report of SA BYRON E. McFALL, dated at Okla. City, Jan. 29, 1958. This replaces the report of SA McFALL dated Dec. 30, 1957. The enclosures mentioned in referenced report of Jan. 29, 1958, have previously been furnished to the Bureau.

The following additional information is also reported, per Bureau instructions:

The daily report of SA OSWALT for Dec. 18, 1957, reflects that he arrived at the Okla. City Office at 4:48 p.m., from Clinton, Okla., where he is Resident Agent. His No. 3 card for Dec. 18, 1957, also reflects that he arrived at 4:48 p.m. He left the office at 6:00 p.m. for dinner and returned at 7:15 p.m. He then left the office for the night at 10:55 p.m., destination Roberts Hotel, Okla. City. The No. 1 register and No. 3 card for Dec. 19, 1957, for SA OSWALT reflect that he arrived in the office at 8:15 a.m. Thereafter he visited the office of the U. S. Attorney from 9:50 a.m. until 11:30 a.m. He departed from Okla. City at 12:50 p.m. His daily reports indicate he was on sick leave Dec. 20, 1957.

On Jan. 23, 1958, SA OSWALT advised he did not consult a doctor during the evening of his illness Dec. 18, 1957, because he was in a hotel, the hour was late and he did not consider his condition serious enough to require medical aid that night or the following day. He further advised that when he returned home on Dec. 19, 1957, he went to bed and slept and rested for eighteen hours, and that thereafter he felt no need for medical attention. He said he did later discuss his condition with his personal physician, Dr. J. H. TISDAL, who suggested that possibly OSWALT had a fever on Dec. 19, 1957, which could have caused drowsiness.

RE: ACCIDENT INVOLVING BUCAR #R-123
1956 Ford, Dec. 19, 1957
SA ROBERT D. OSWALT, Driver
Oklahoma City Division

ASAC E. R. TULLY desires to make the following comments:

Dec. 19, 1957, was the day before the Semi Annual Agents' Conference. SA OSWALT came into my office on the morning of Dec. 19, 1957, and said he did not feel well and thought he would go home. I reminded him that the conference was scheduled for the next day. He then advised me that he had been sick during the night and thought he might be getting the flu. I asked him if he had consulted a doctor, and he told me he had not, as he did not think that was necessary. I then said I had better have an Agent drive him home, since Clinton, Okla., is approximately 90 miles from Okla. City. He said that was unnecessary and that although he was not feeling well, he was not sick enough to have an Agent accompany him. It was suggested that he go back to the hotel and lie down, but SA OSWALT stated if he were getting the flu, he would be better off at home rather than in a hotel. Again I said I thought it might be best if an Agent drove him to Clinton, but he dismissed the idea as completely unnecessary. During our discussion he indicated he had taken no medicine or drugs. He said he was quite capable of driving, and I thought he was in the best position to judge this. He looked and acted O.K. as he left my office.

SA BYRON E. McFALL, who conducted the investigation in this matter and who prepared the report, states that his first concern upon arriving at the scene of the accident was naturally the condition of SA OSWALT. Finding SA OSWALT in fairly good condition, he briefly reviewed the facts with OSWALT and with Trooper [redacted] Trooper [redacted] stated that the home of [redacted] is the only residence in the area where witnesses might have been available. He said he contacted the [redacted] residence and spoke to [redacted] who stated she had not seen the accident, but had looked out after she heard the crash. Trooper [redacted] told SA McFALL that he would submit a report within a few days. During the ride to Clinton, Okla., SA OSWALT advised SA McFALL he would call his insurance agent about the damage, and he said he was certain his personal insurance would not cover the Bureau car but that it would probably cover the damage to the mail box of [redacted]

After it was determined that the Bureau car was not covered by SA OSWALT'S insurance, SA McFALL considered it superfluous to

mention insurance, although it is evident now that same should have been mentioned, and it is included in the revised report.

The report of the investigation by the Okla. Highway Patrol, considered the best evidence of the results of the police investigation, was not set up in the investigative report itself since it does not lend itself to recopying in the investigative report. However, sufficient copies should have been attached as exhibits, which has been done in the revised report.

The failure to include SA OSWALT'S name in the title was through inadvertence and has been corrected.

Since SA McFALL had discussed the recommendation as to OSWALT'S responsibility for the accident with ASAC TULLY, he proceeded to dictate the recommendation along with the report since he had ASAC TULLY'S view on the matter and it was presumed that ASAC TULLY'S approval of the outgoing communication ratified the recommendation. The qualification in the recommendation, which the Bureau considers not sufficiently clear-cut, was made solely because it was felt that an outright recommendation would be somewhat presumptuous in that it would substitute the judgment of this office for that of the Bureau. However, it is clear now that that was not in keeping with the Bureau's instructions in these matters, and a positive recommendation is now made herein.

This entire matter has been discussed at great length with SA McFALL by ASAC TULLY, and the importance of having these investigations specific and accurate in keeping with Bureau instructions was emphasized and is now clearly understood.

As the Acting SAC, I have again carefully considered the facts in this case. I agree that my first recommendation was not a clear-cut, definite recommendation. It is difficult to judge how much effect OSWALT'S health had on his driving. His admission that he momentarily went to sleep might be construed as a clear-cut case of carelessness were it not for the concomitant facts relative to his ill health on the previous evening. As it turned out, when he got home OSWALT went to bed for a period of sleep and rest of eighteen hours

and this seemed to be all he needed since he never felt it necessary to see a doctor. This factor tends to indicate that he was over tired as well as feeling ill. This factor of being over tired could bring about the conclusion that OSWALT used poor judgment in driving in such a condition. I have tried to make this recommendation clear-cut but just, in keeping with Bureau policy.

Consequently, after additional serious consideration of this entire matter, it is now my decision that SA OSWALT used poor judgment in driving while he was both over tired and slightly ill, and he, therefore, should pay for the damages to the Bureau car. I recommend no administrative action against SA OSWALT, for no one knows better than he does now that it would have been better not to drive when he felt as he did.

I recommend a letter of censure for SA BYRON E. McFALL for failure to include in the investigative report information relative to the owner of the mail box and damage to the mail box, as well as information concerning insurance, and failure to set out in the report the results of the police investigation.

I recommend a letter of censure for myself for approving this report without noting these delinquencies.

PLEASE DO NOT MUTILATE THESE FORMS IN ANY WAY.

ReBulet Jan. 14, 1958.

Enclosed are Forms C.A.1 and C.A. 2.

As will be noted from the date of the reports, these reports were filled out promptly at the time of my injury on Sept. 9, 1957. They were delivered to the doctor's office, where I turned them over to the nurse in charge. Thereafter I was home for a few days on sick leave due to the injury. These forms were mailed back to the Okla. City Office, attention SAC, where they were inadvertently dropped into my personal correspondence folder. An investigation was made upon the receipt of Bulet and their location determined.

I sincerely regret causing the unnecessary trouble which has arisen in this matter, and I am sorry that the forms, through inadvertence, were not sent to the Bureau in the proper fashion.

Dear Mr. Tully:

Attention has been directed to the fact that you approved a report dated December 30, 1957, concerning an accident involving an official automobile which occurred on December 19, 1957, and you did not discover delinquencies in the report. Specifically, the owner of property damaged in the accident was not identified in the report, full details relating to the damage were not reported and the report did not indicate if the operator of the Bureau vehicle was covered by insurance. In addition, the results of investigation performed by the police were not set out in the report and the title of the report did not contain the name of the driver of the Bureau car even though this is a requirement. In view of the foregoing deficiencies it is apparent that you did not review the report with sufficient care.

You should realize that matters of this type require careful supervision and in the future it will be incumbent upon you to carry out your responsibilities with a higher degree of thoroughness so that there will be no further reason to criticize you in this fashion.
